

ACTIVITES DE MAINTENANCE

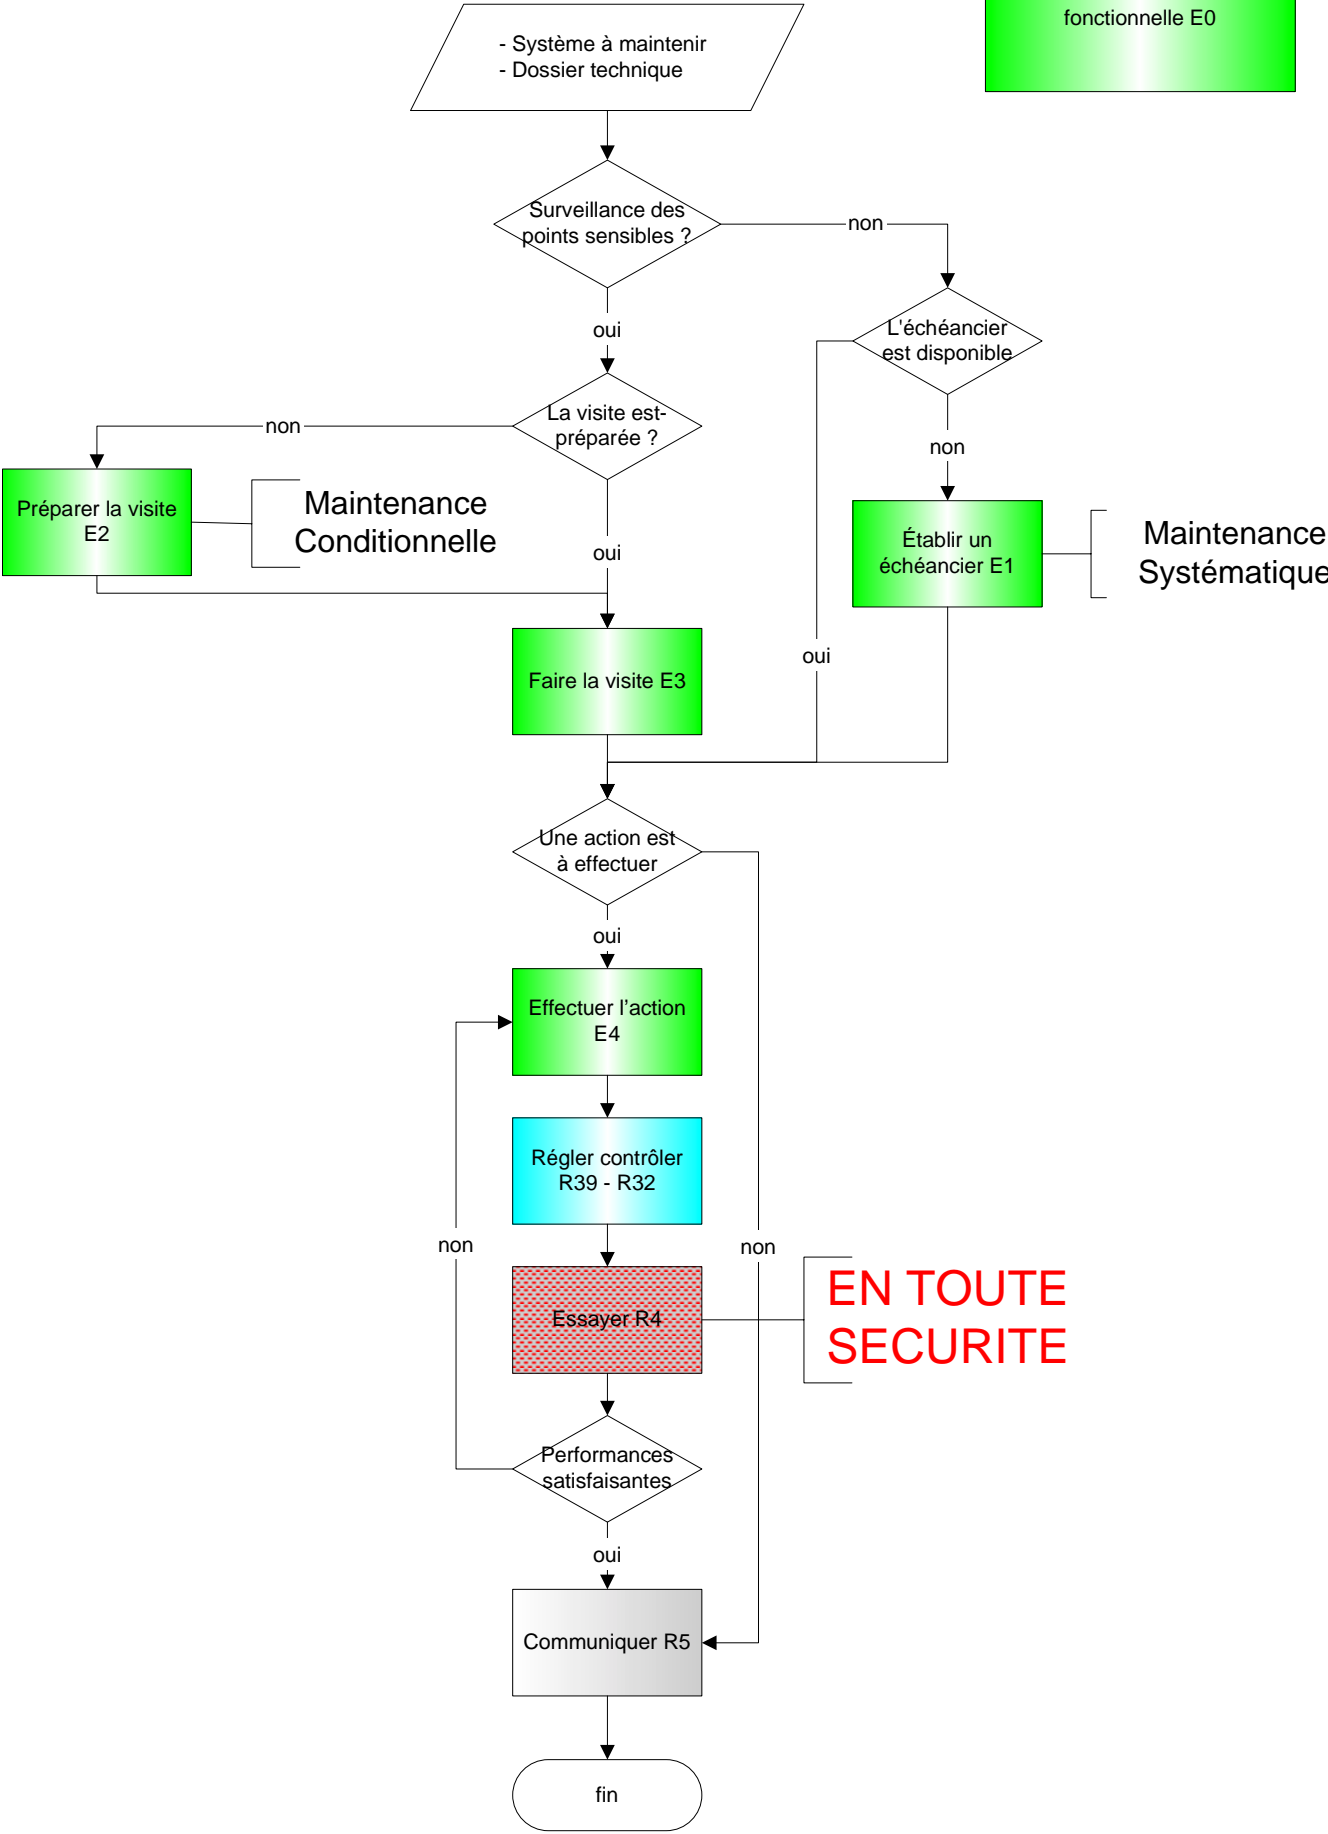

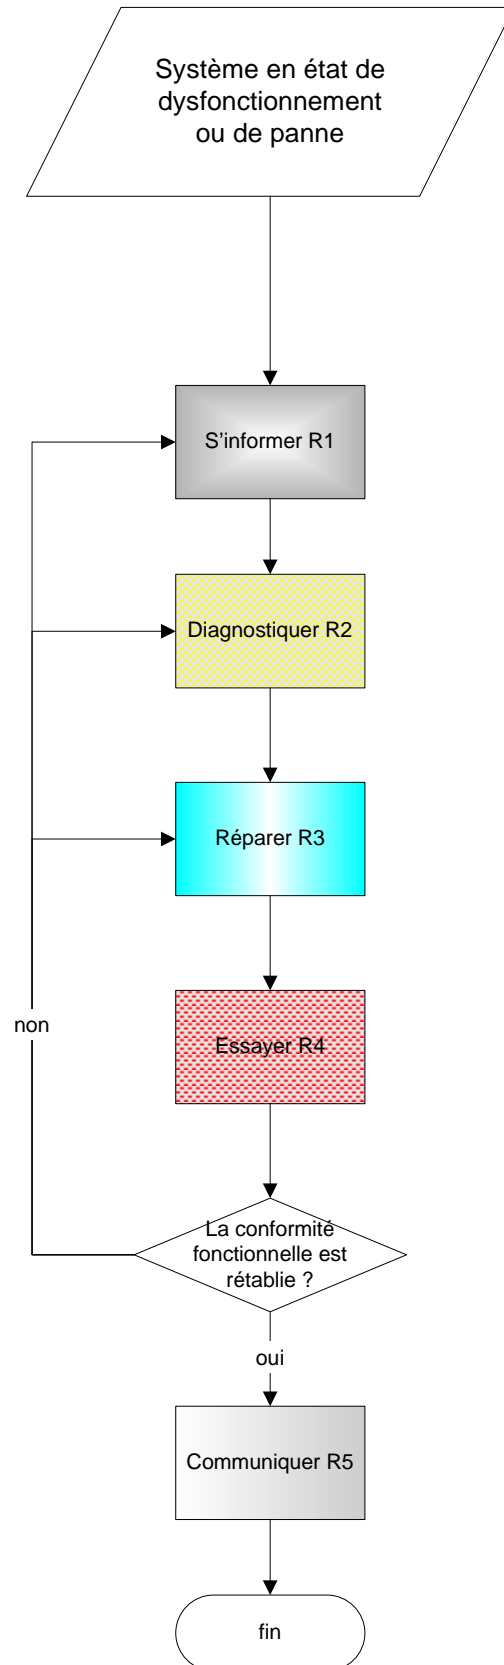

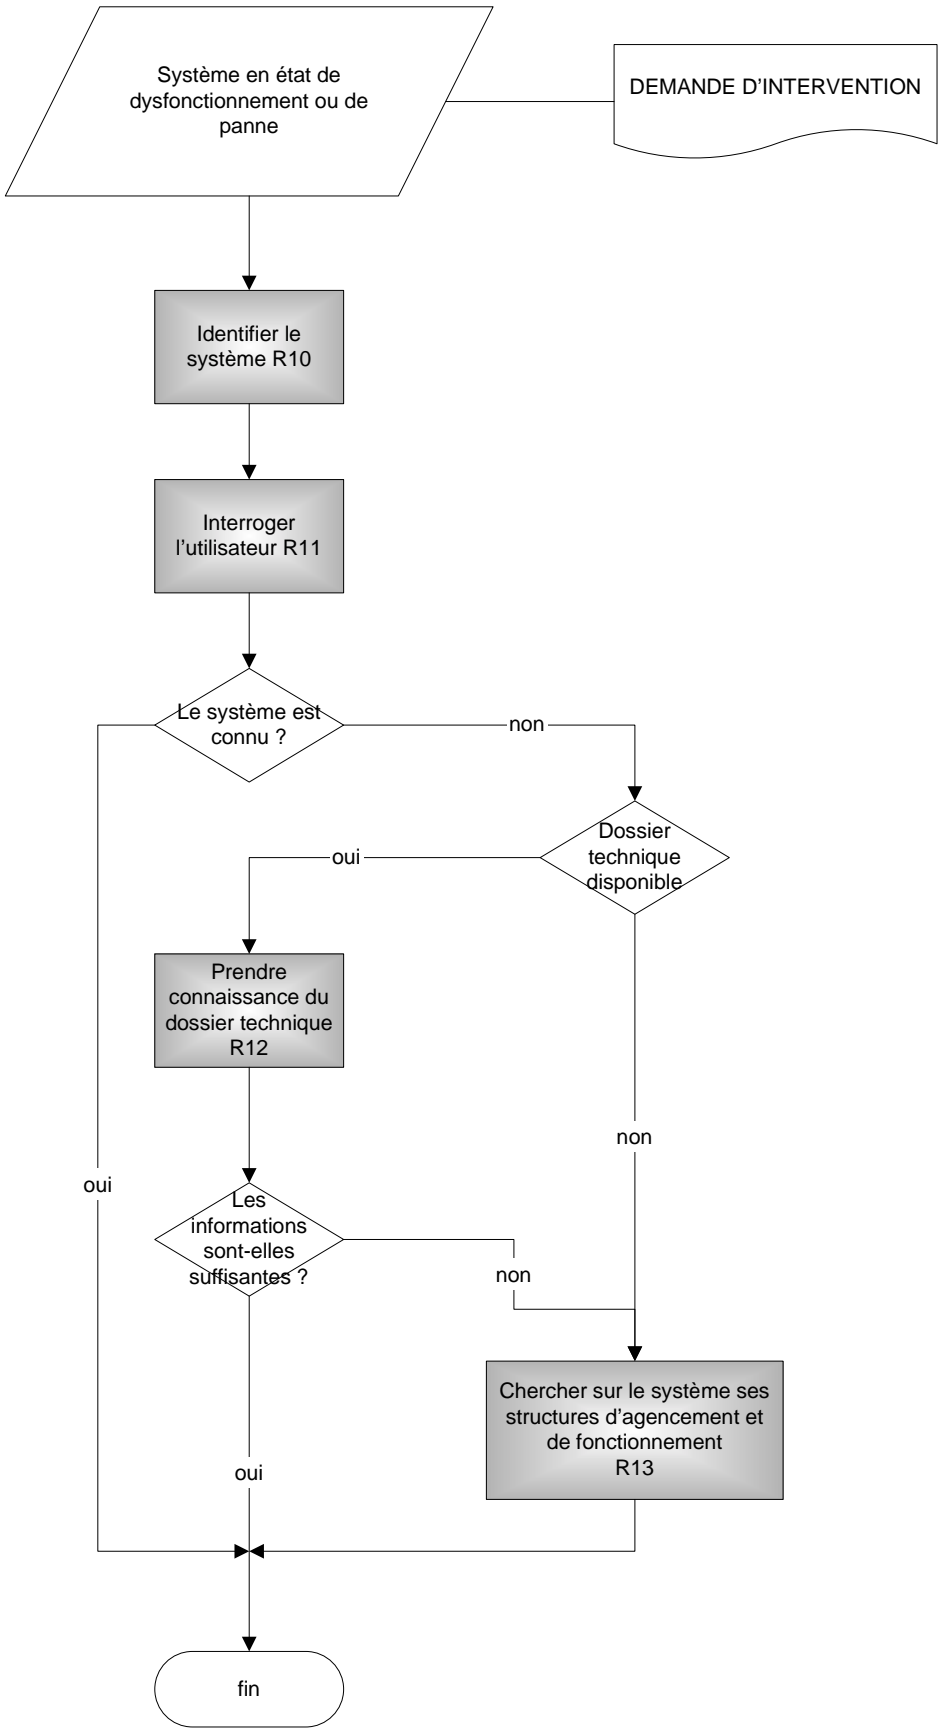

Maintenir la conformité fonctionnelle E0

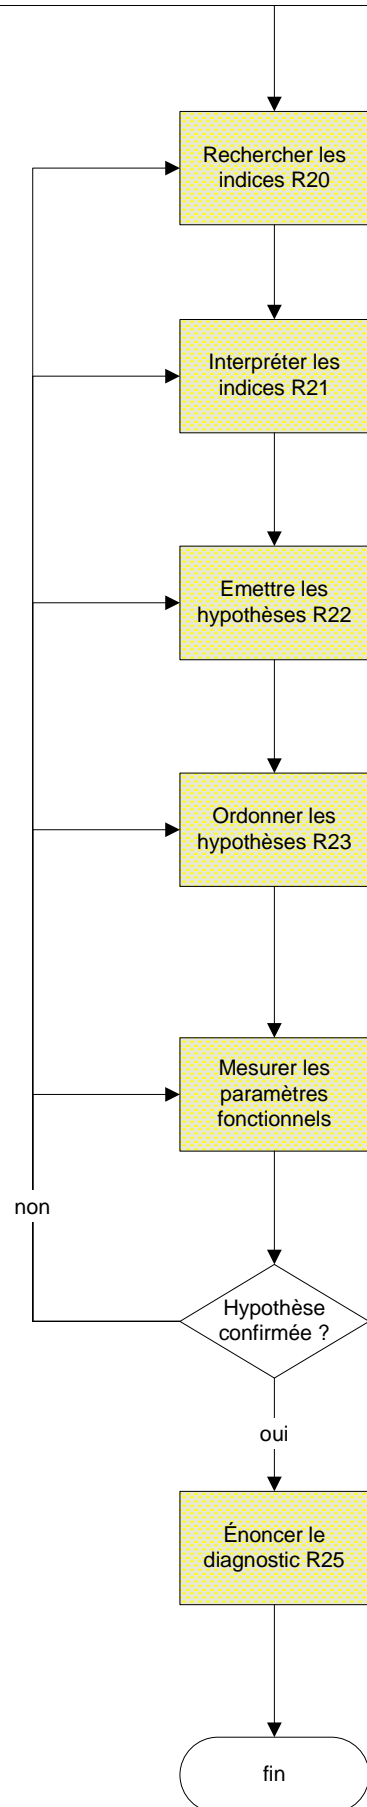

RETABLIR LA CONFORMITE
FONCTIONNELLE
R0

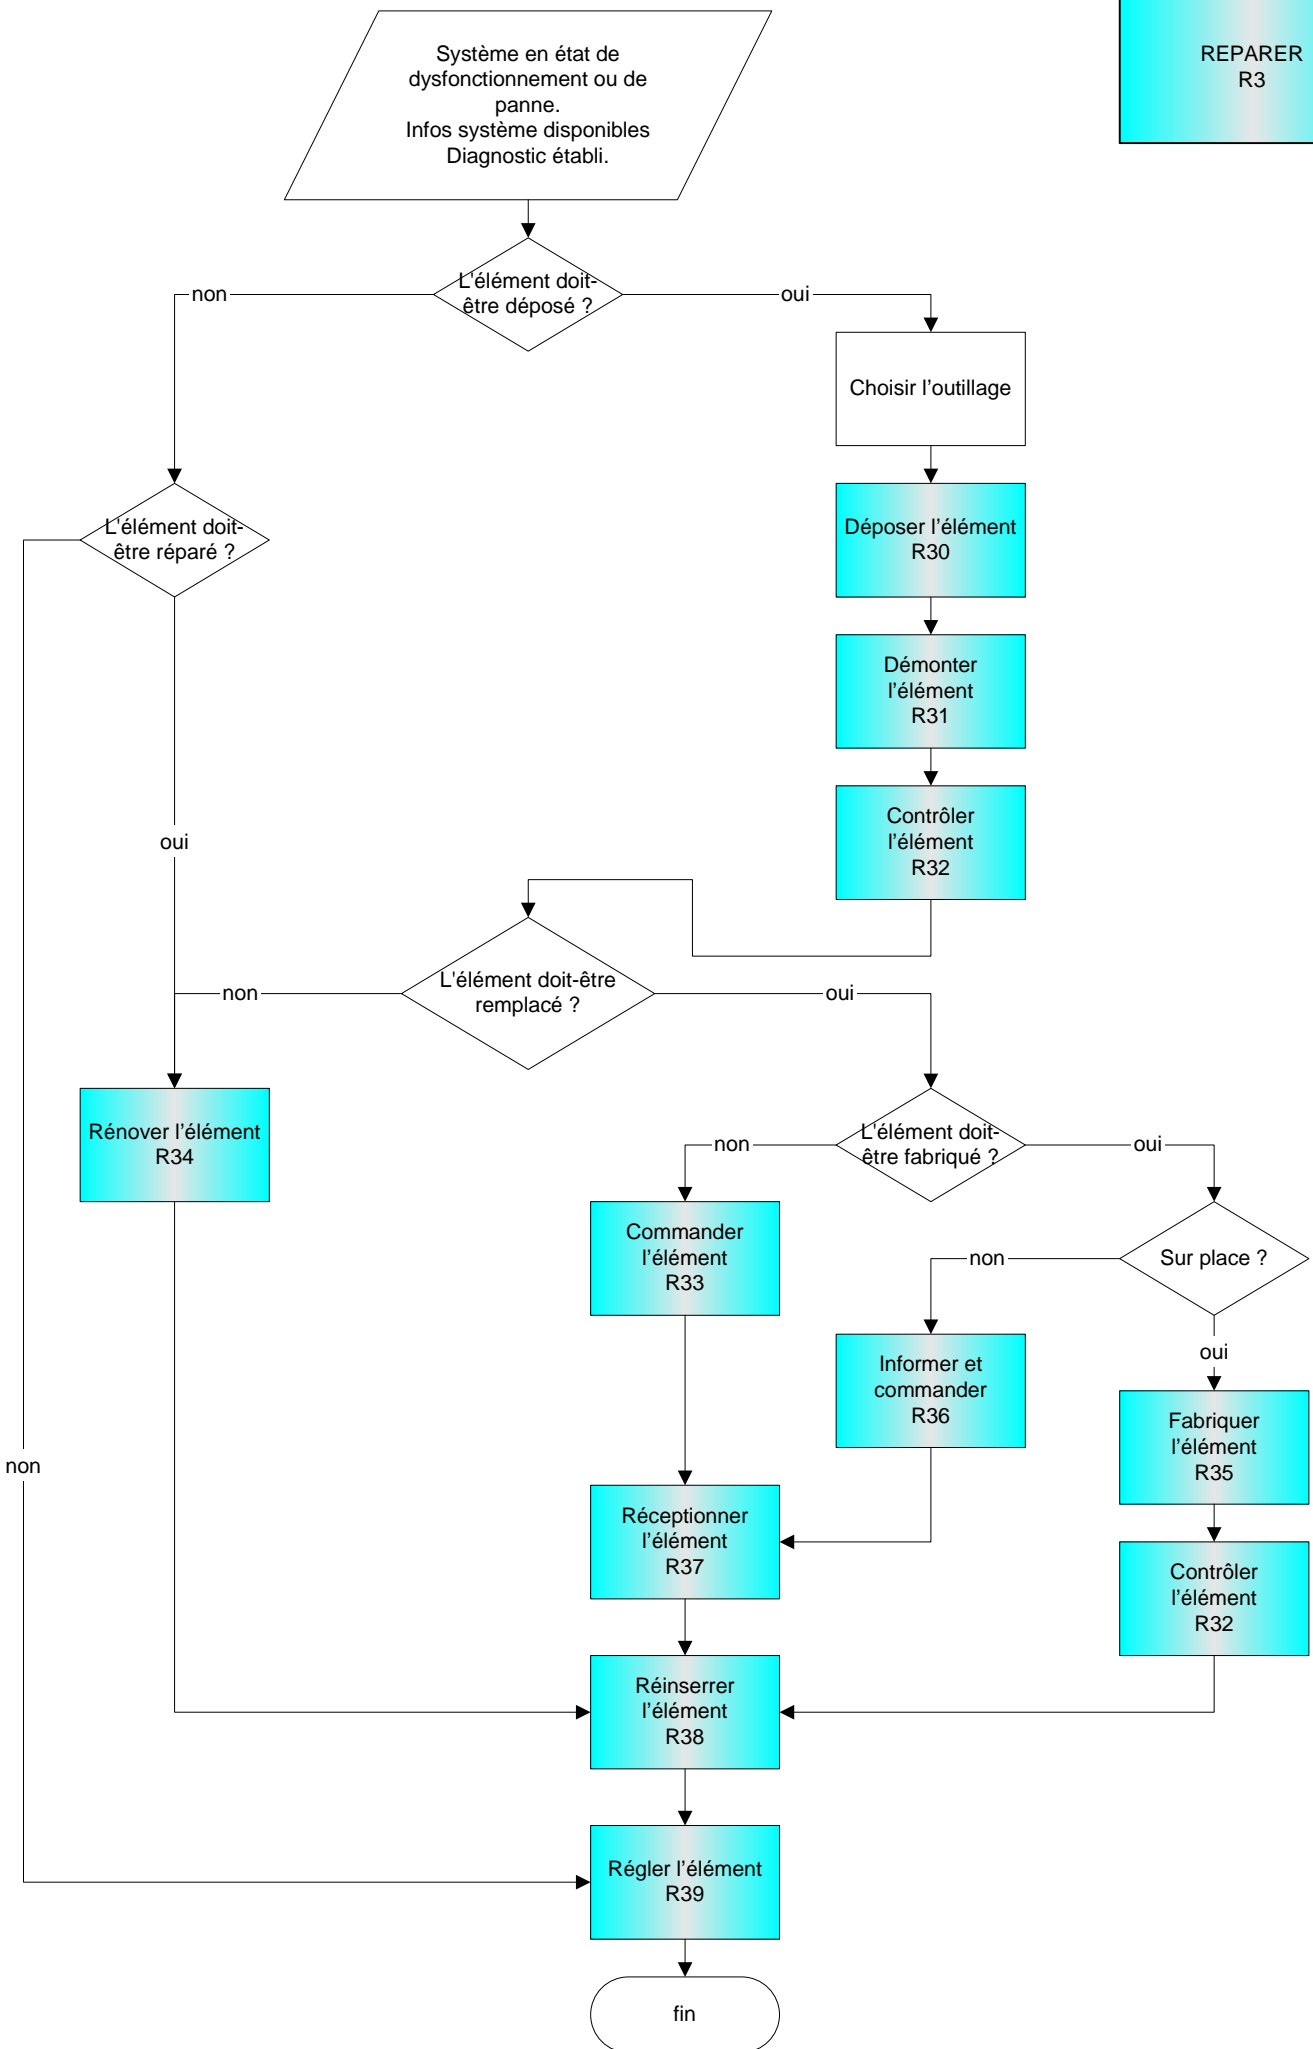

S'INFORMER
R1

REPARER
R3

Système en état de dysfonctionnement ou de panne
Infos système disponibles.

ESSAYER
R4

Performances connues ?

non

S'informer des performances
R12

oui

Choisir les conditions de l'essai
R40

Conditions réelles
(production, manuel, pas à pas)
Banc d'essai simulation

non

Sécurité avant l'essai

oui

Conduire l'essai
R41

Avec ou sans assistance de l'utilisateur

Conditions fonctionnelles rétablies ?

Absence de fuite, odeur, bruit

non

Réparer
R3

oui

Mesurer ou apprécier les performances
R42

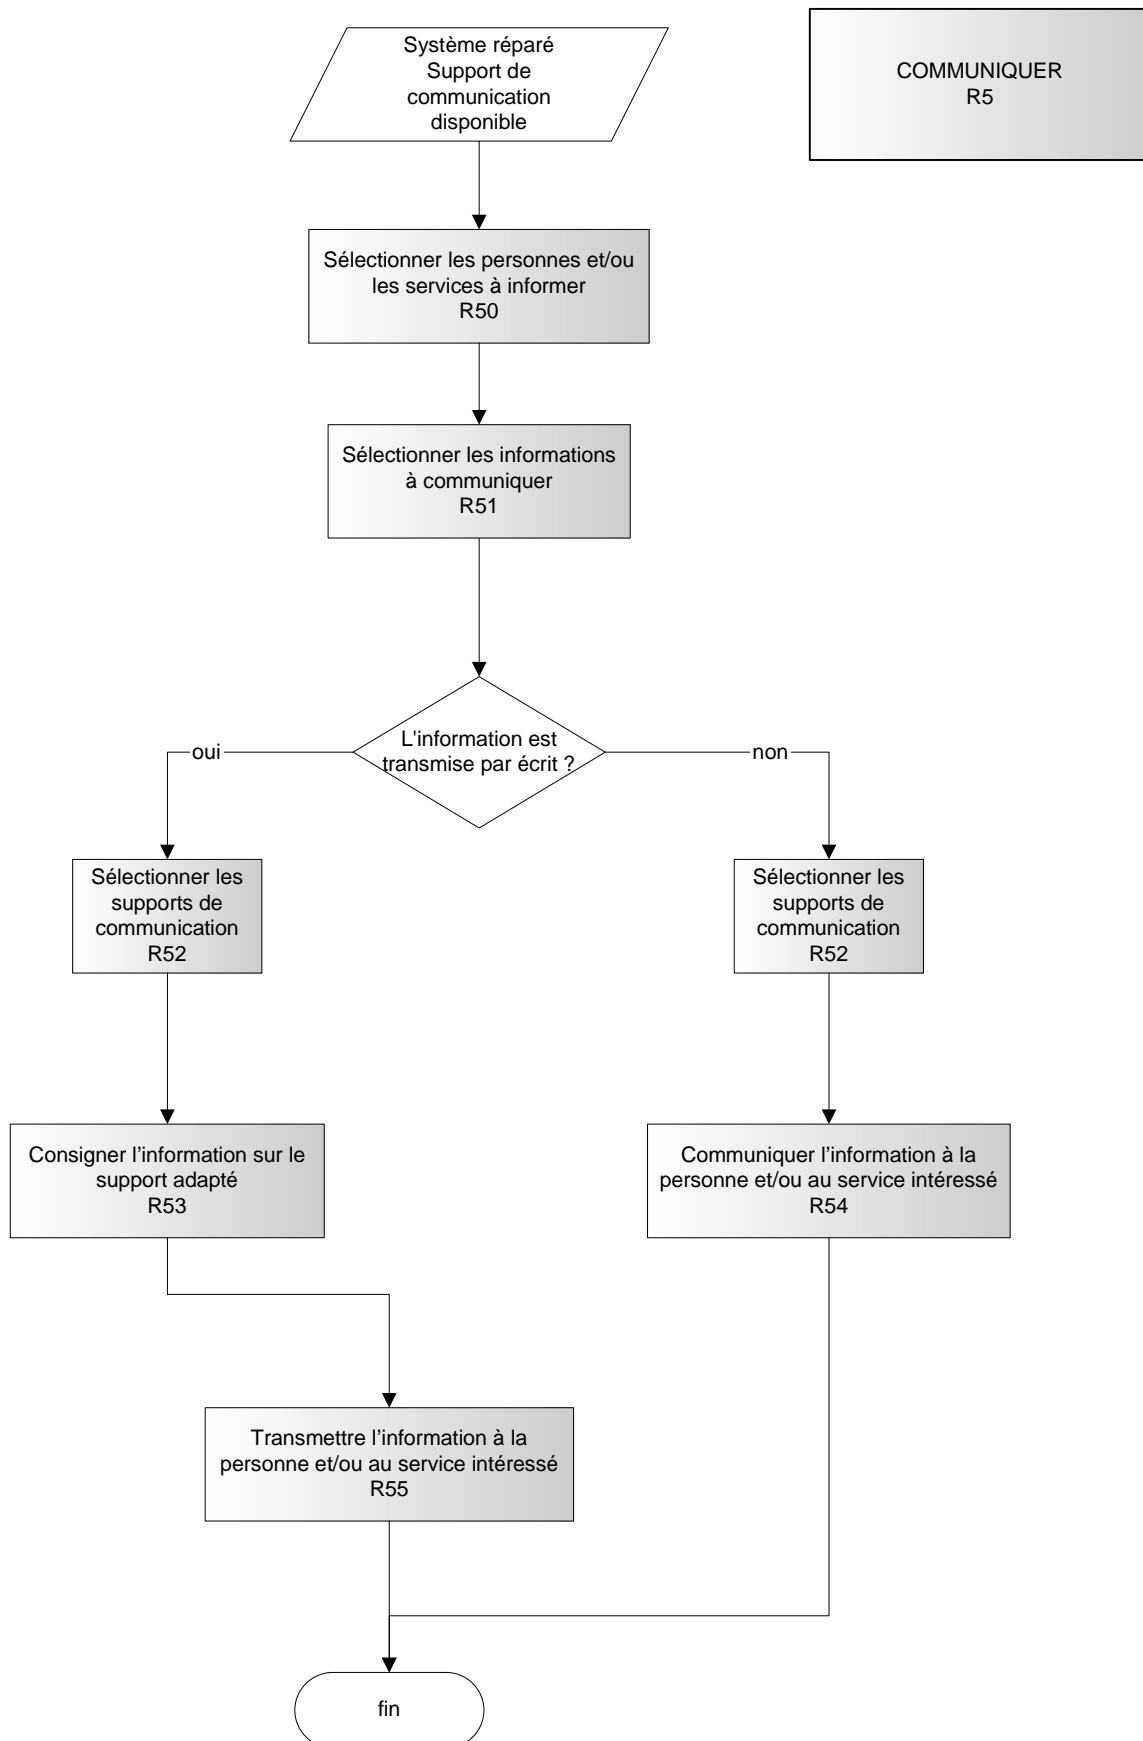

Mettre au point
R43

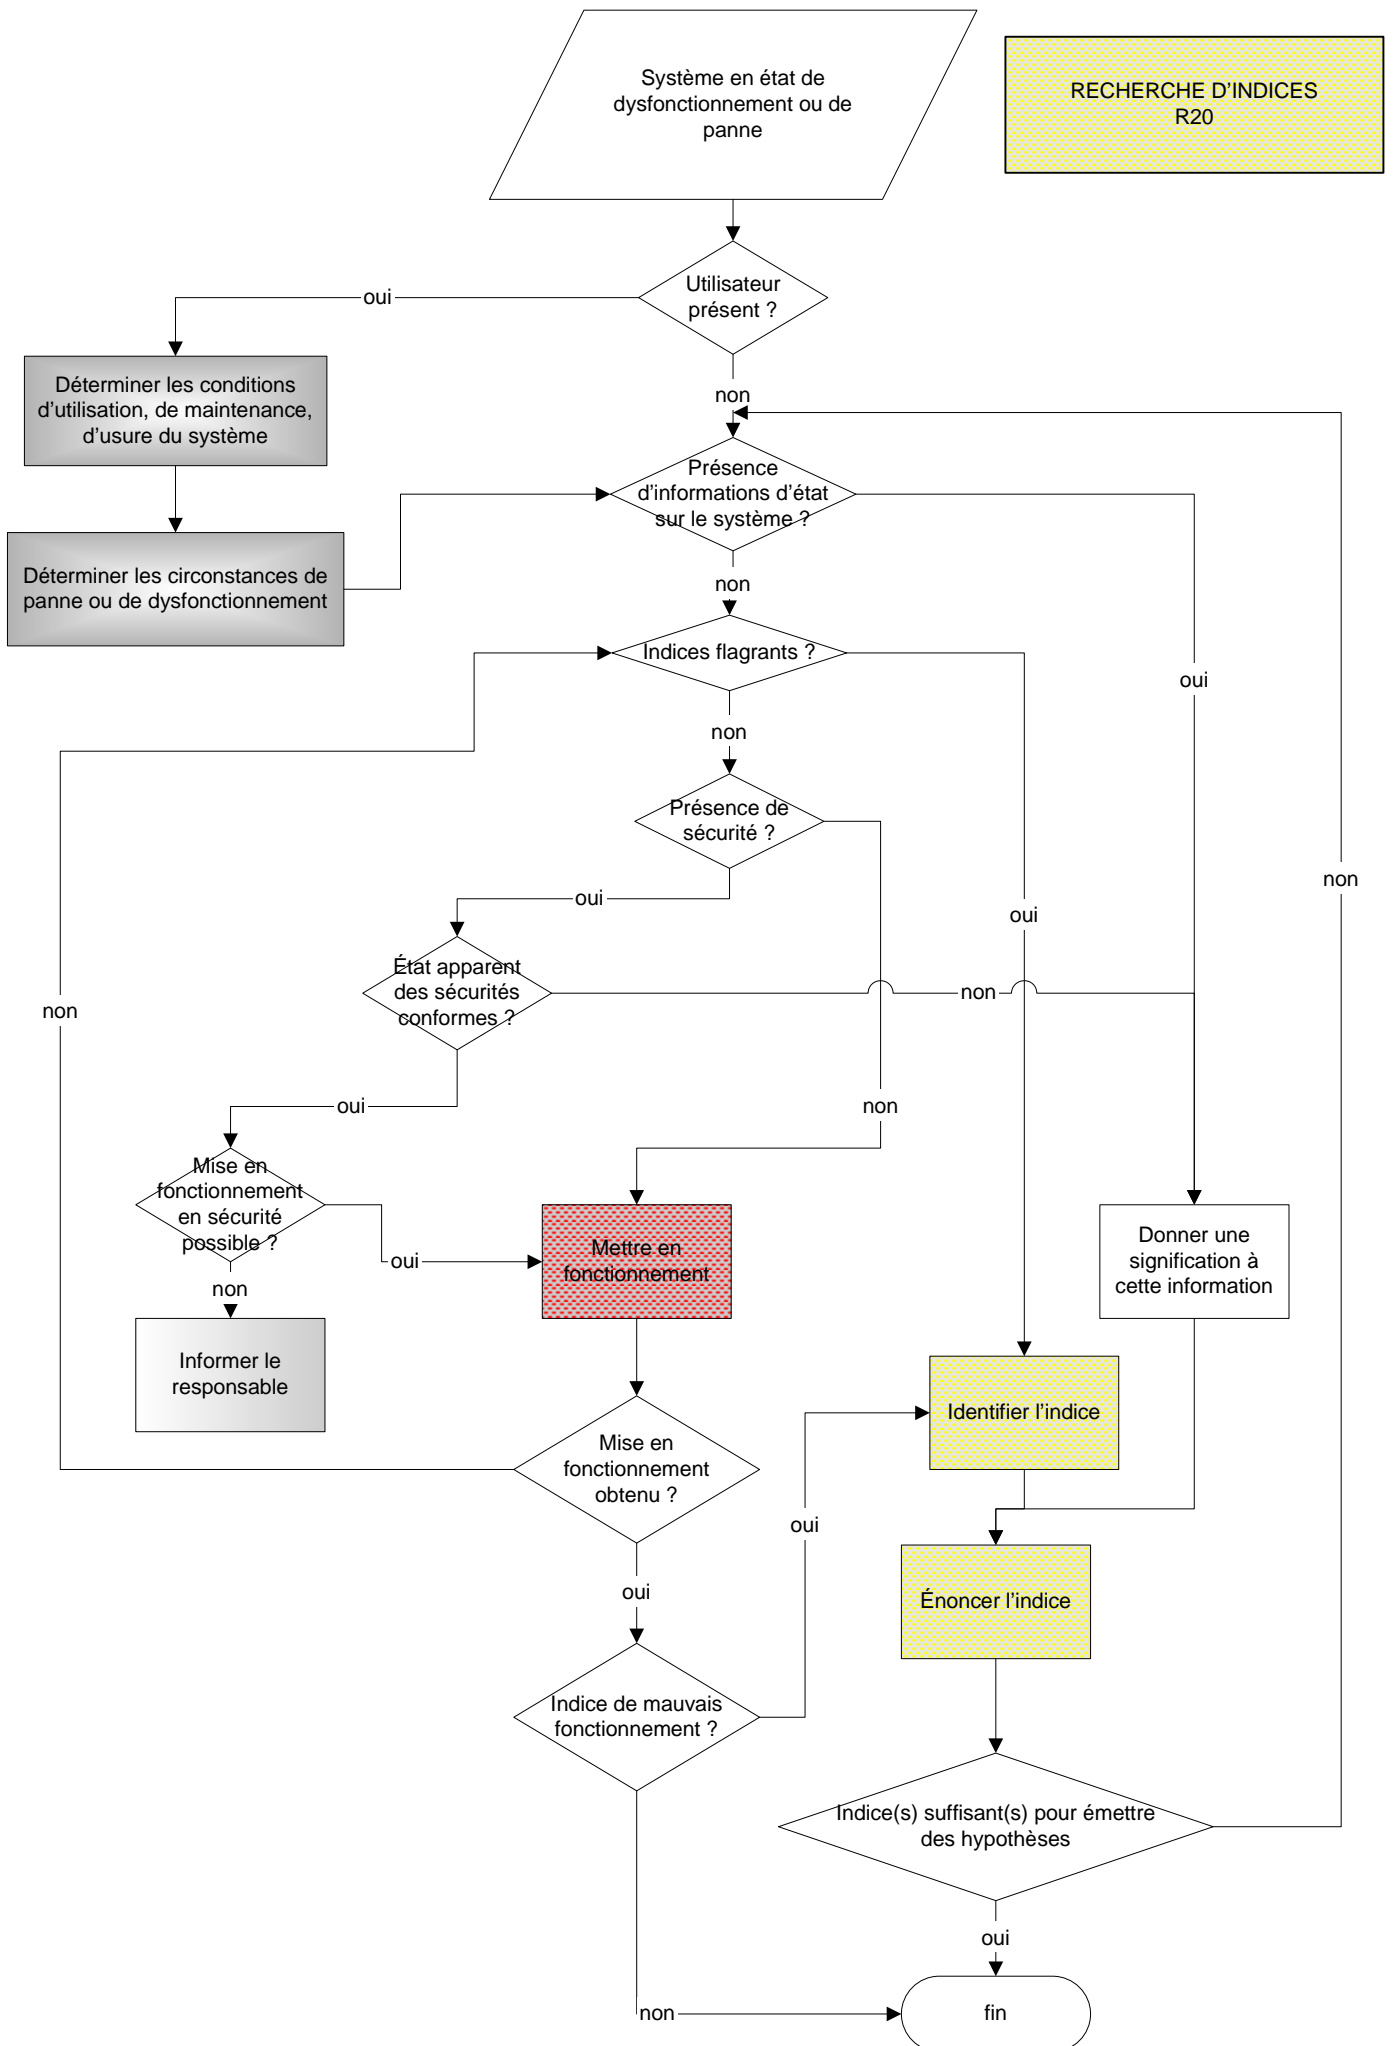

Performances satisfaisantes ?

non

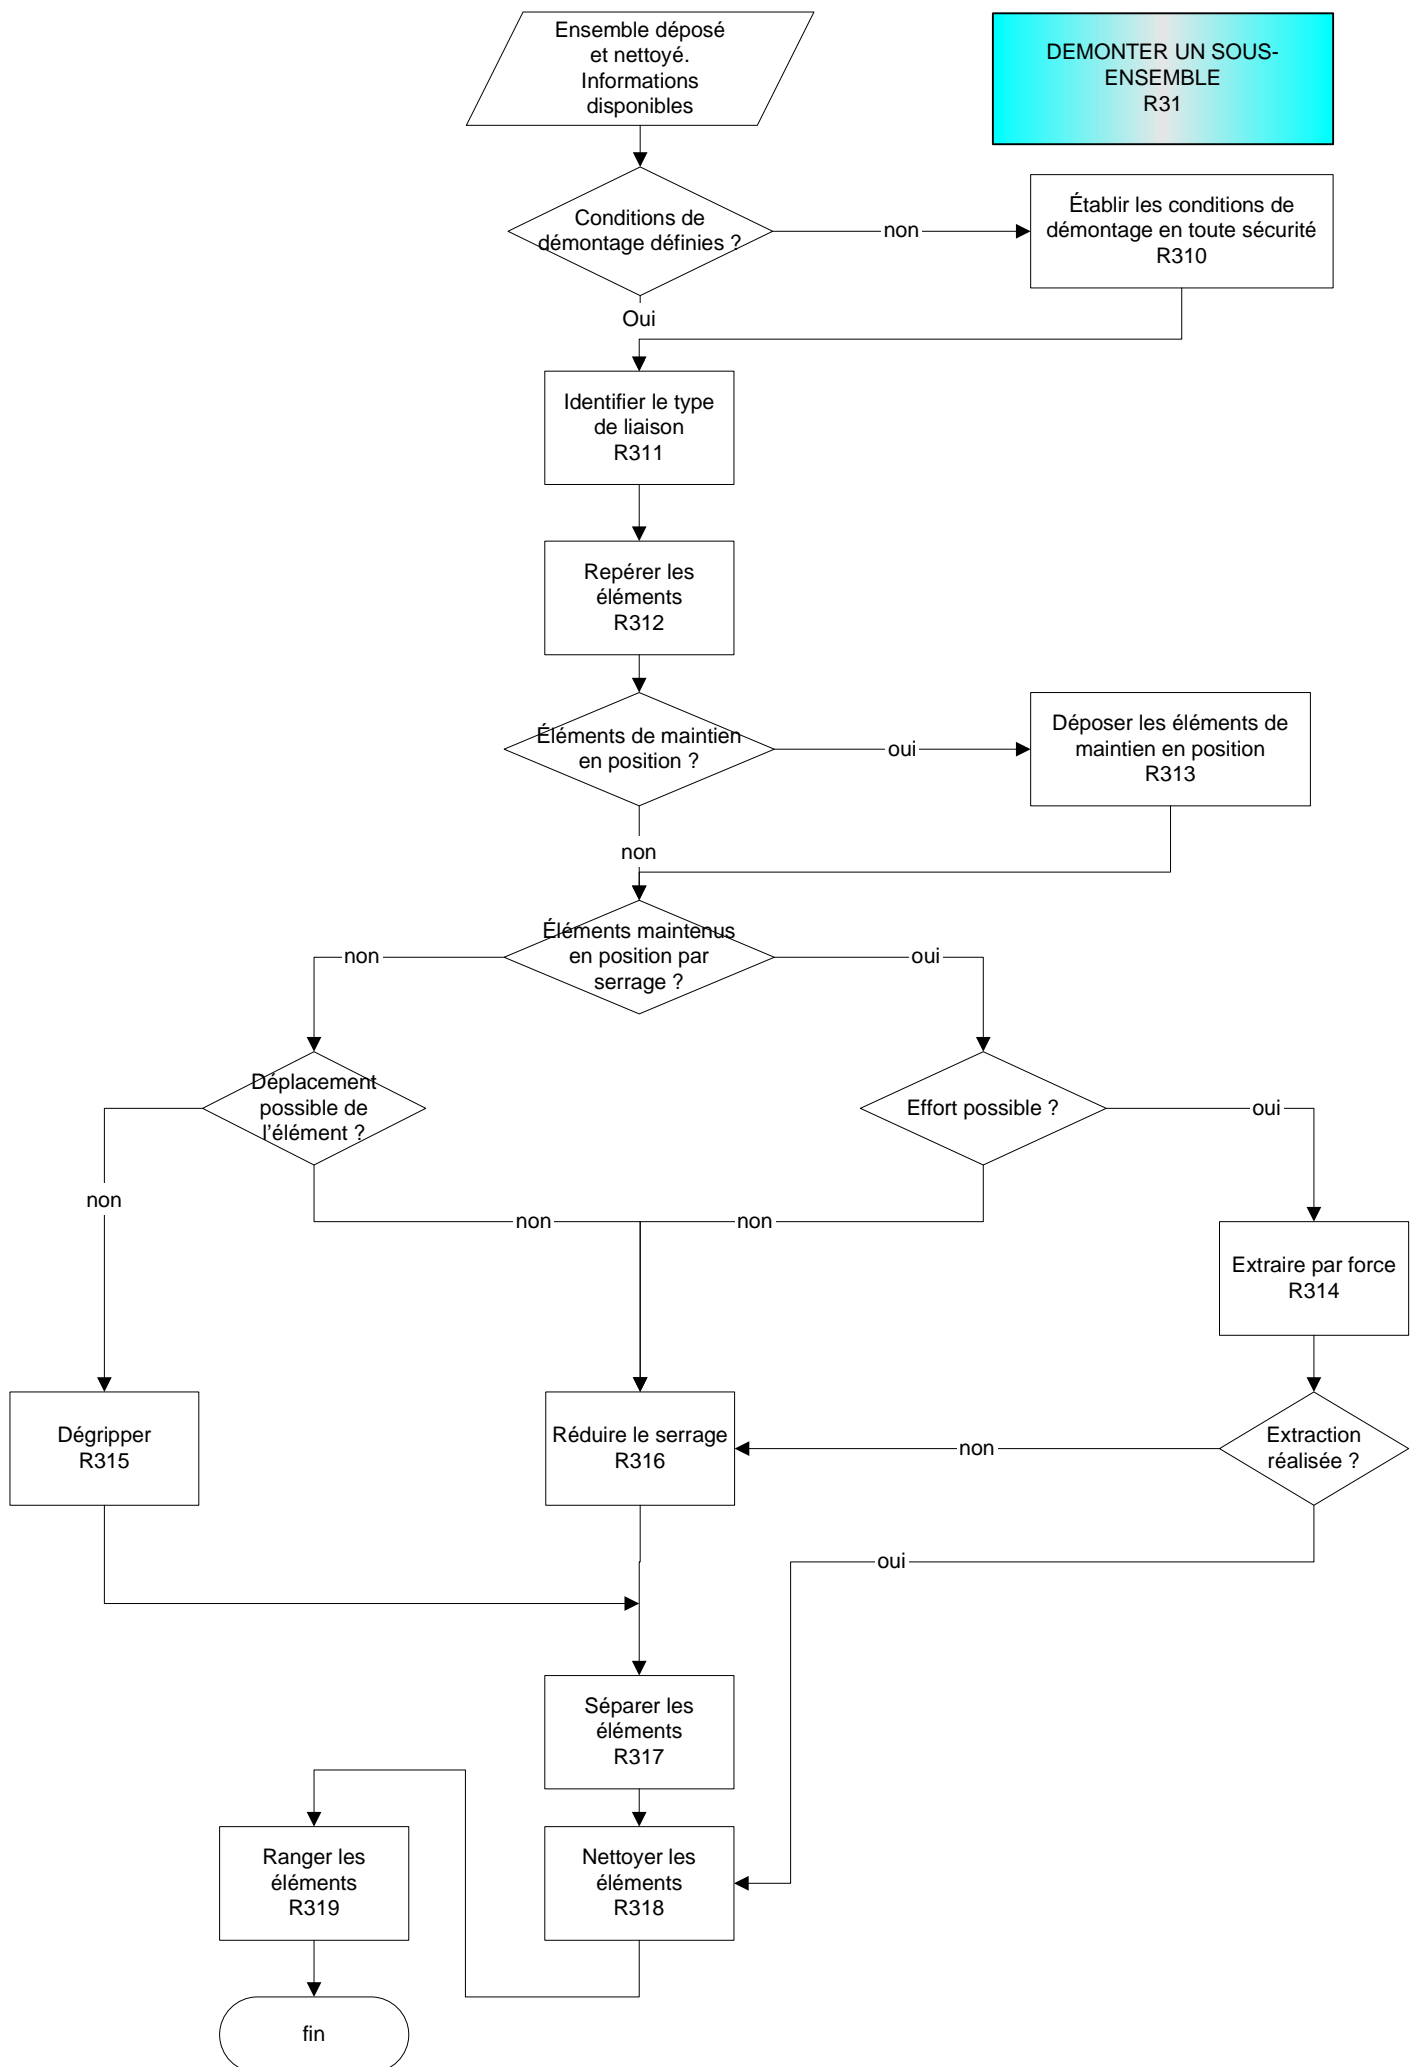

oui

fin

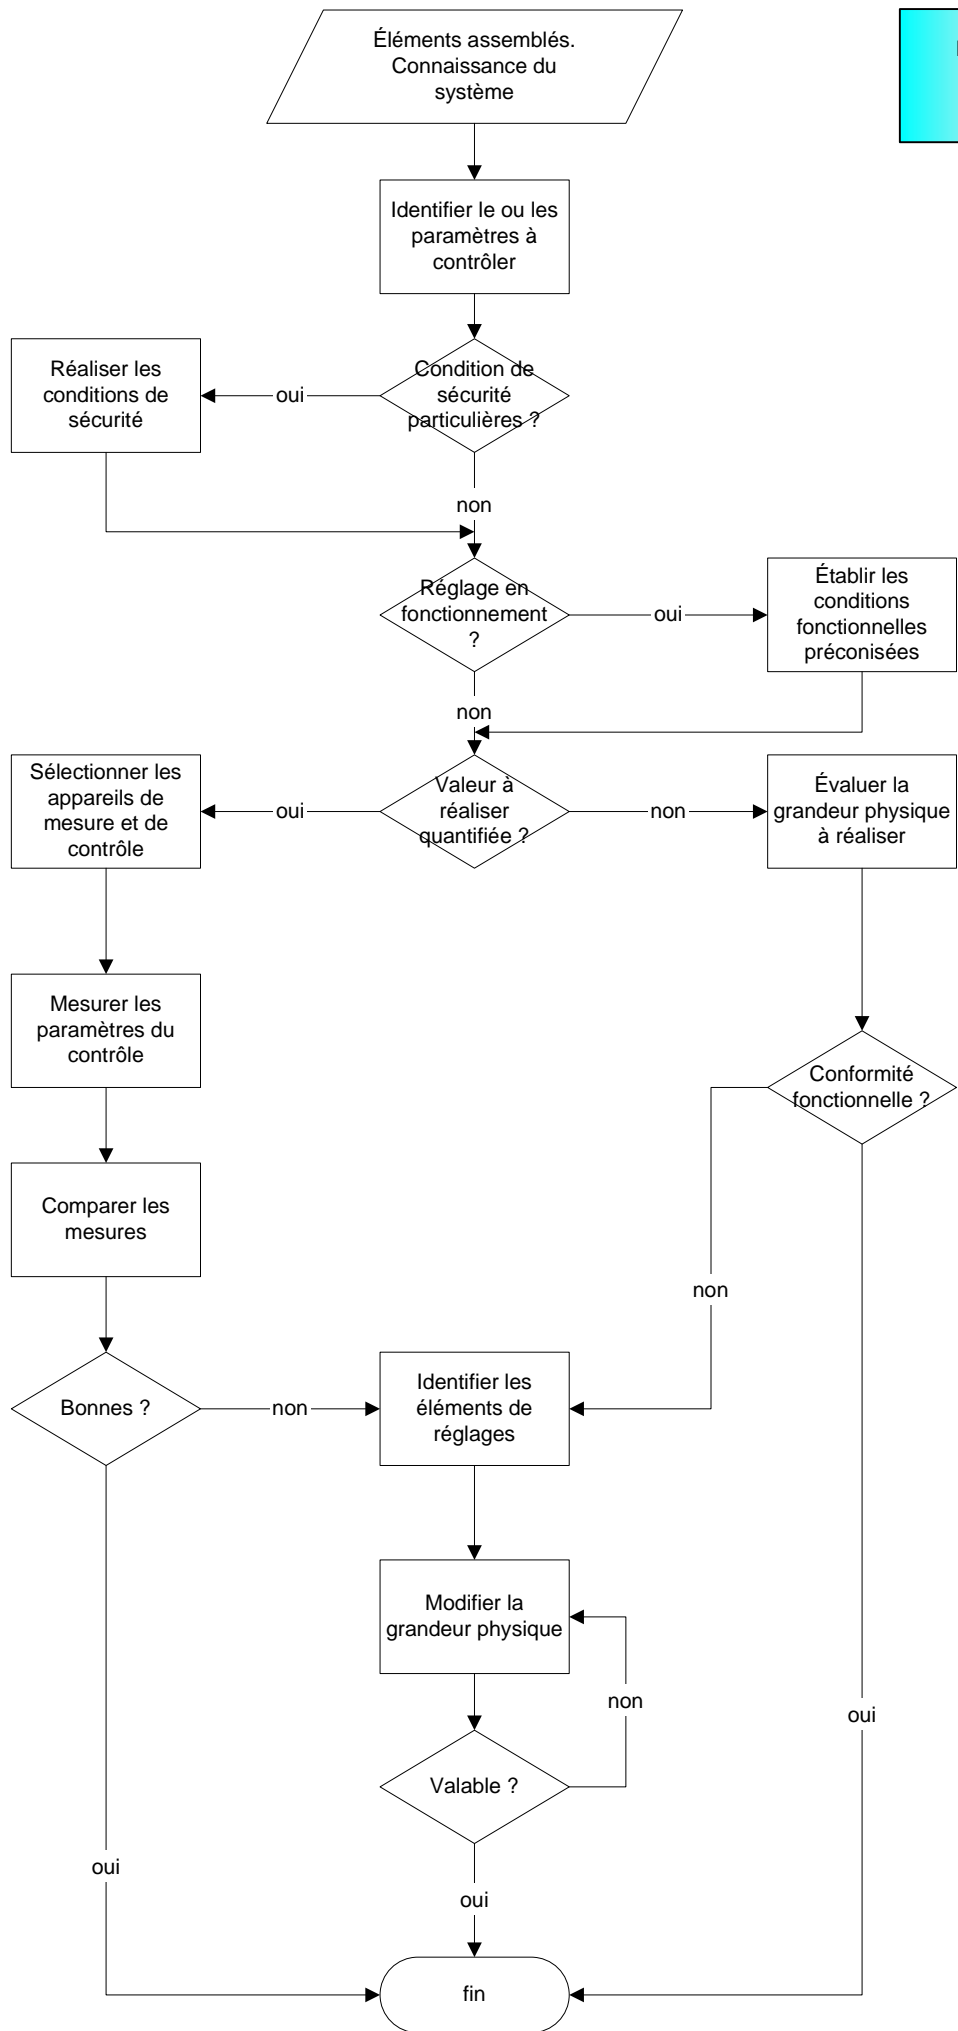

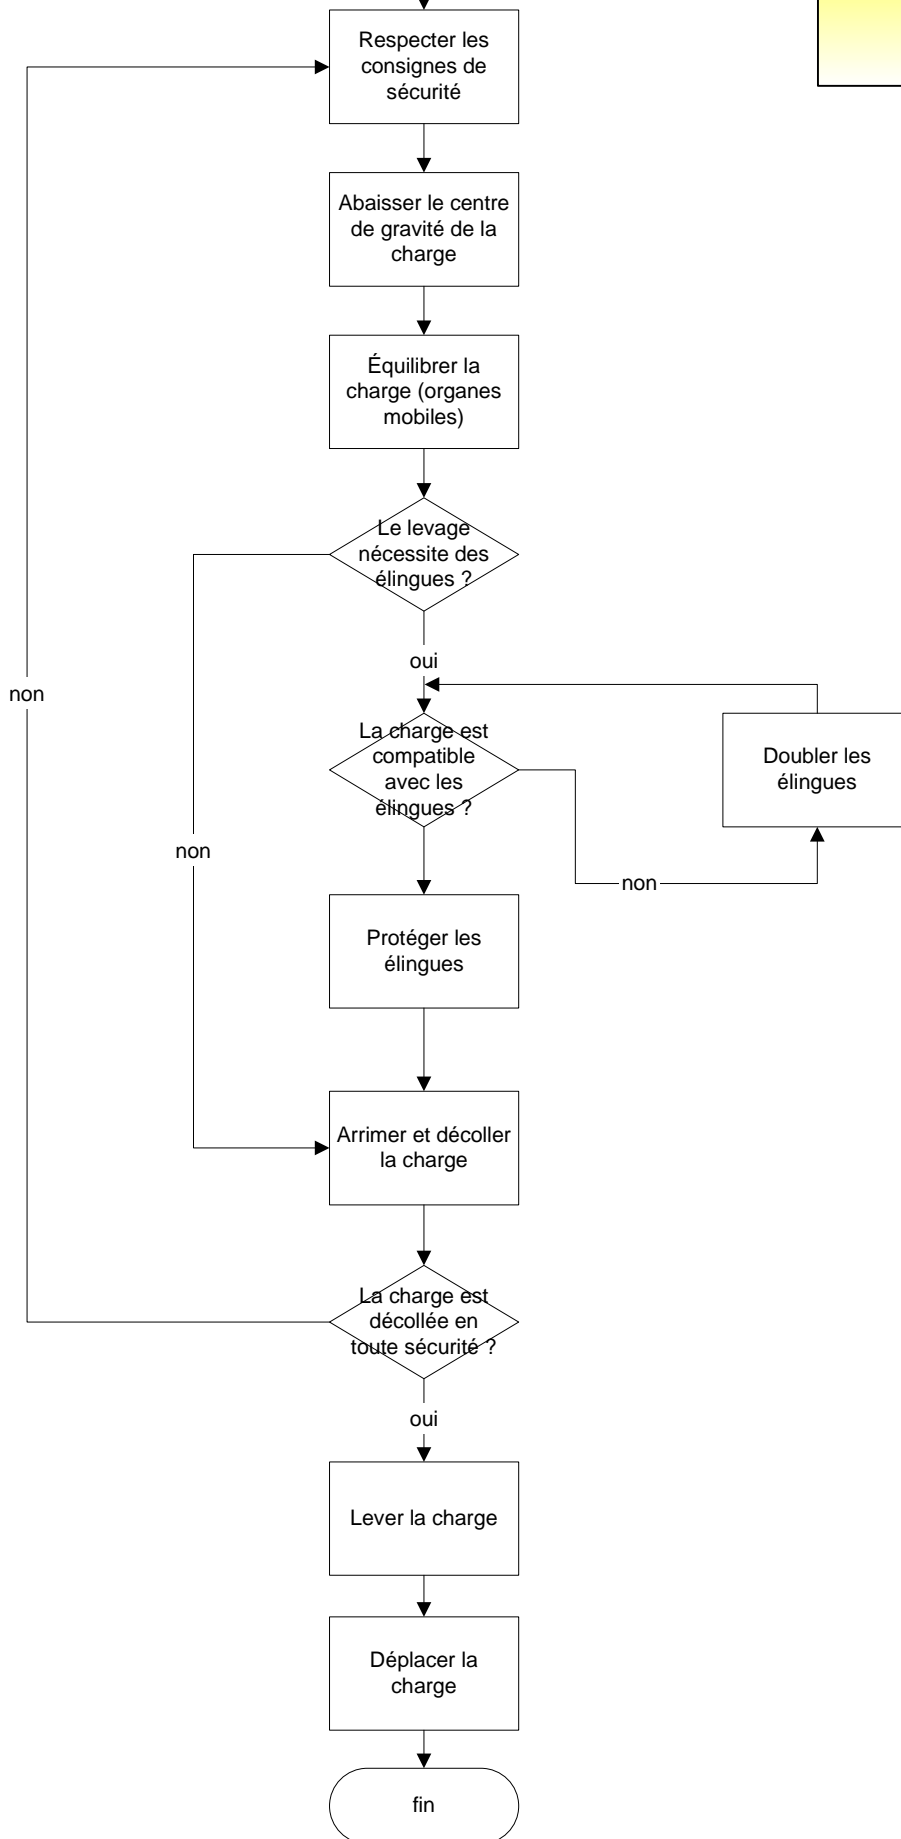

RÉGLER UN ÉLÉMENT R39

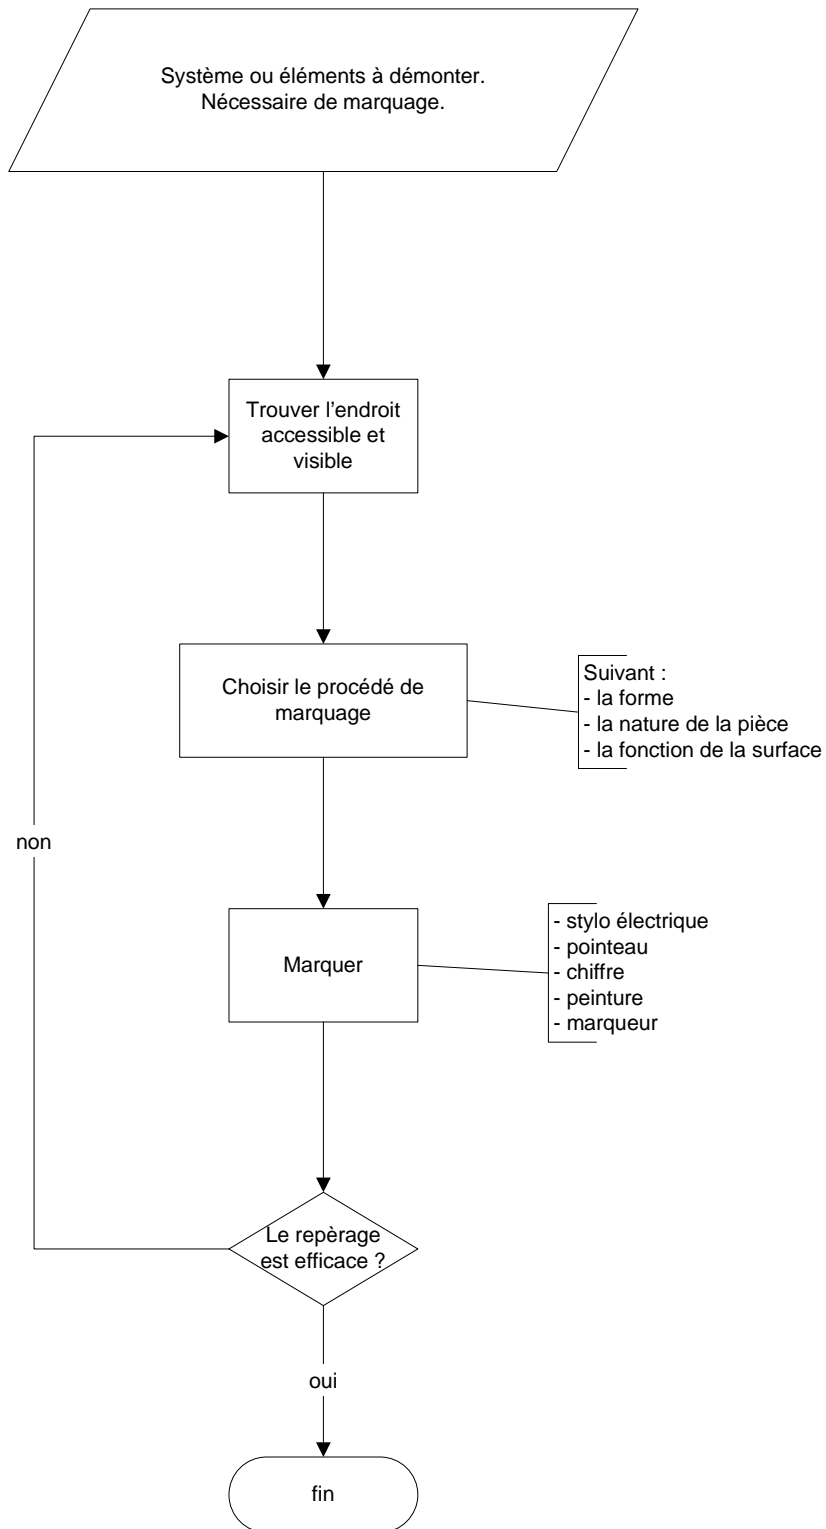

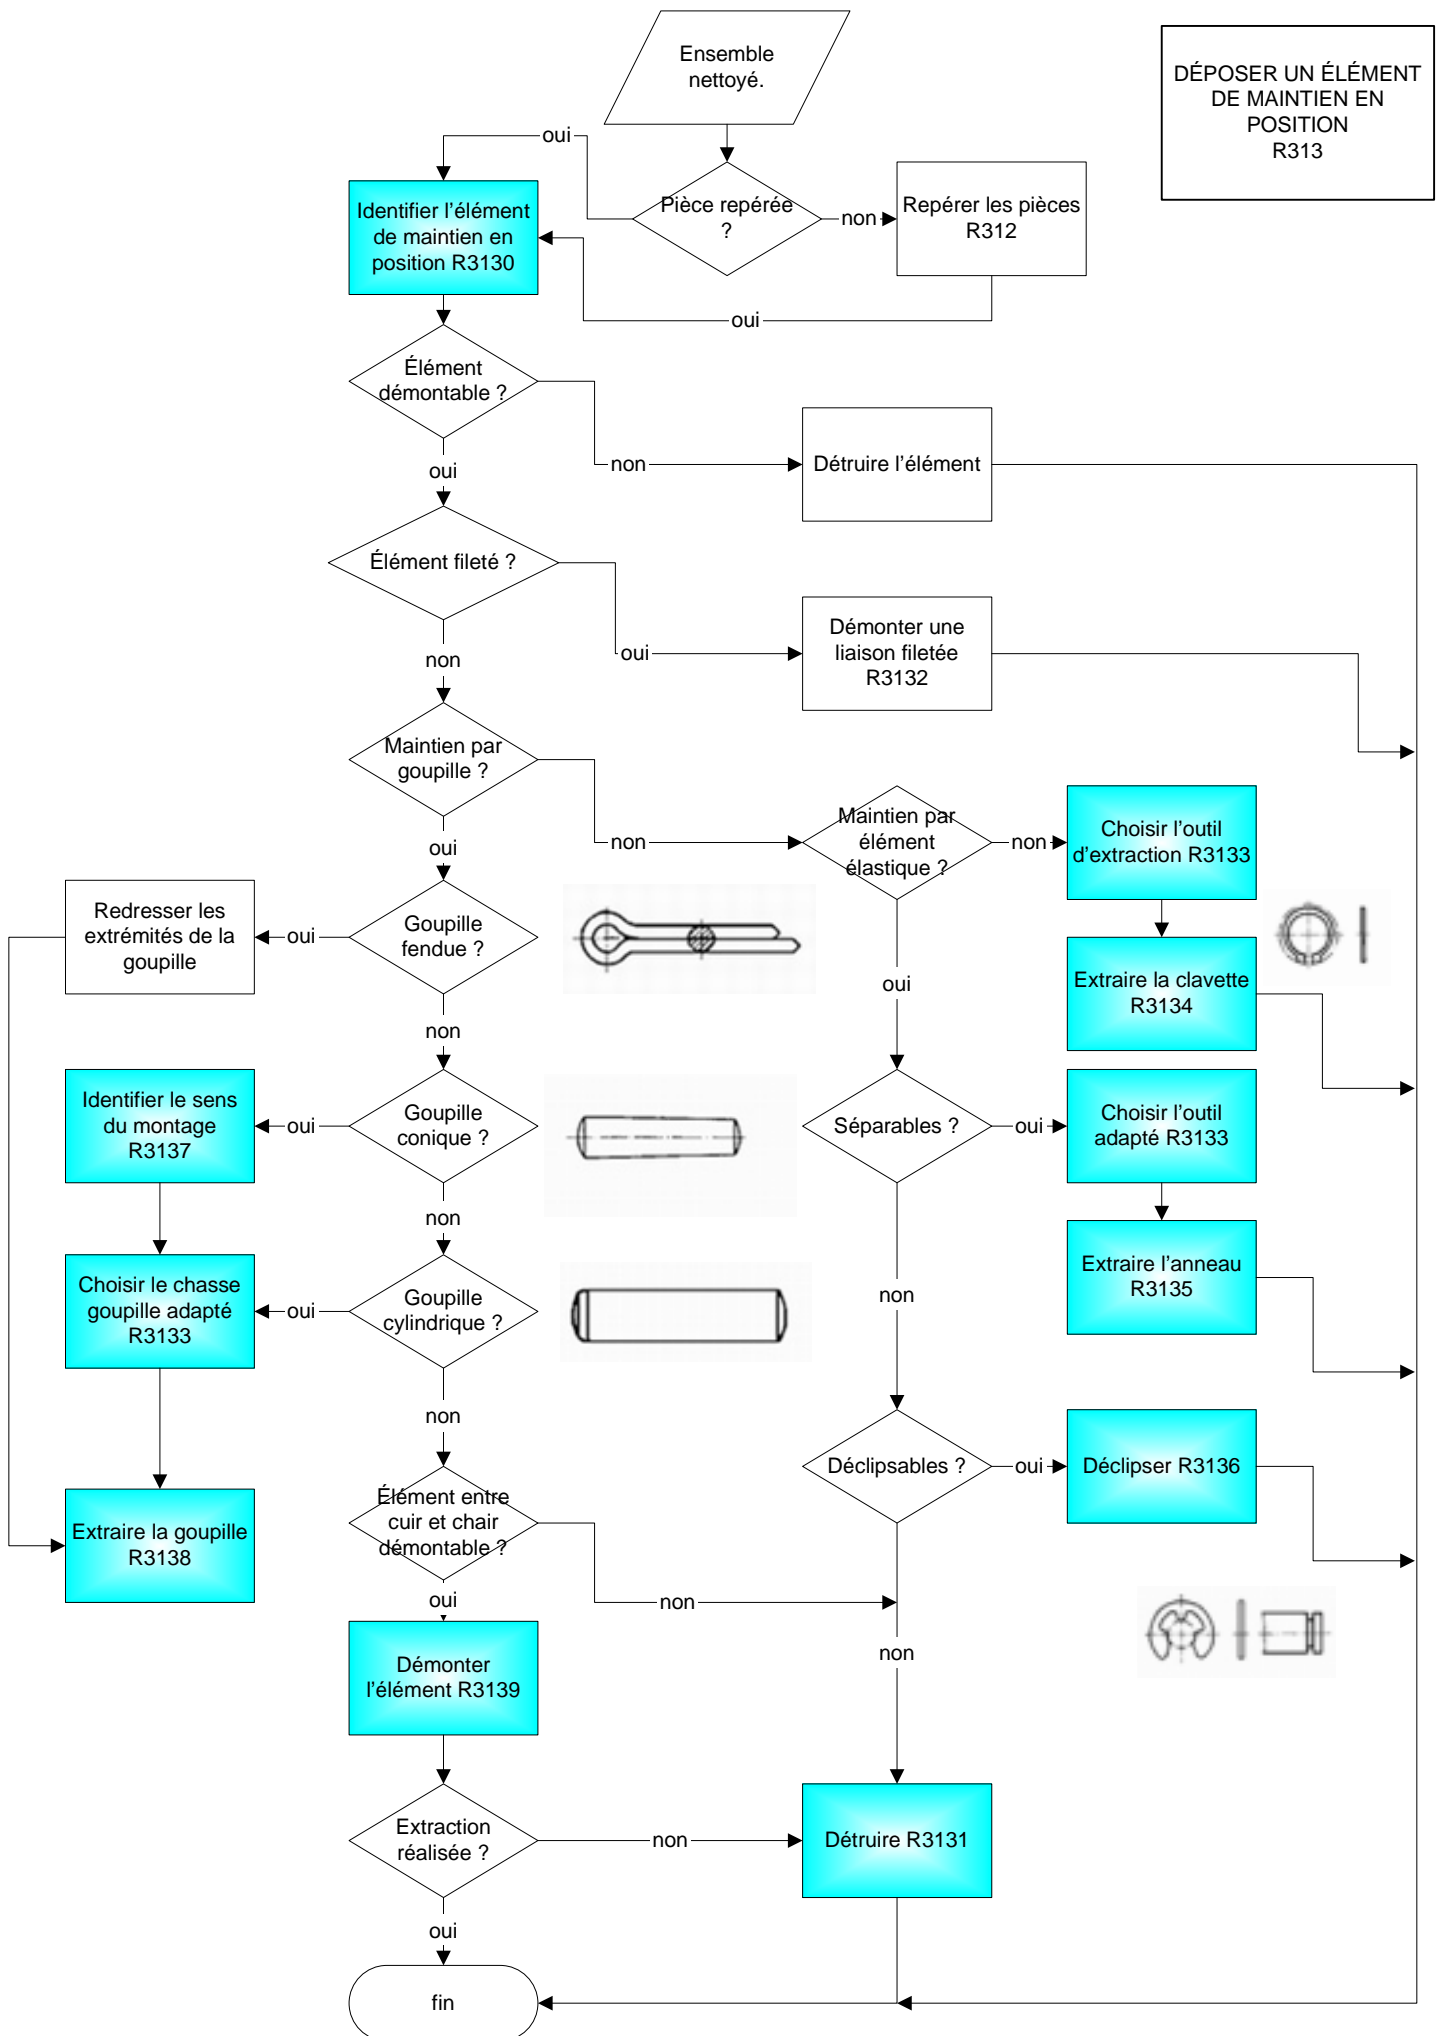

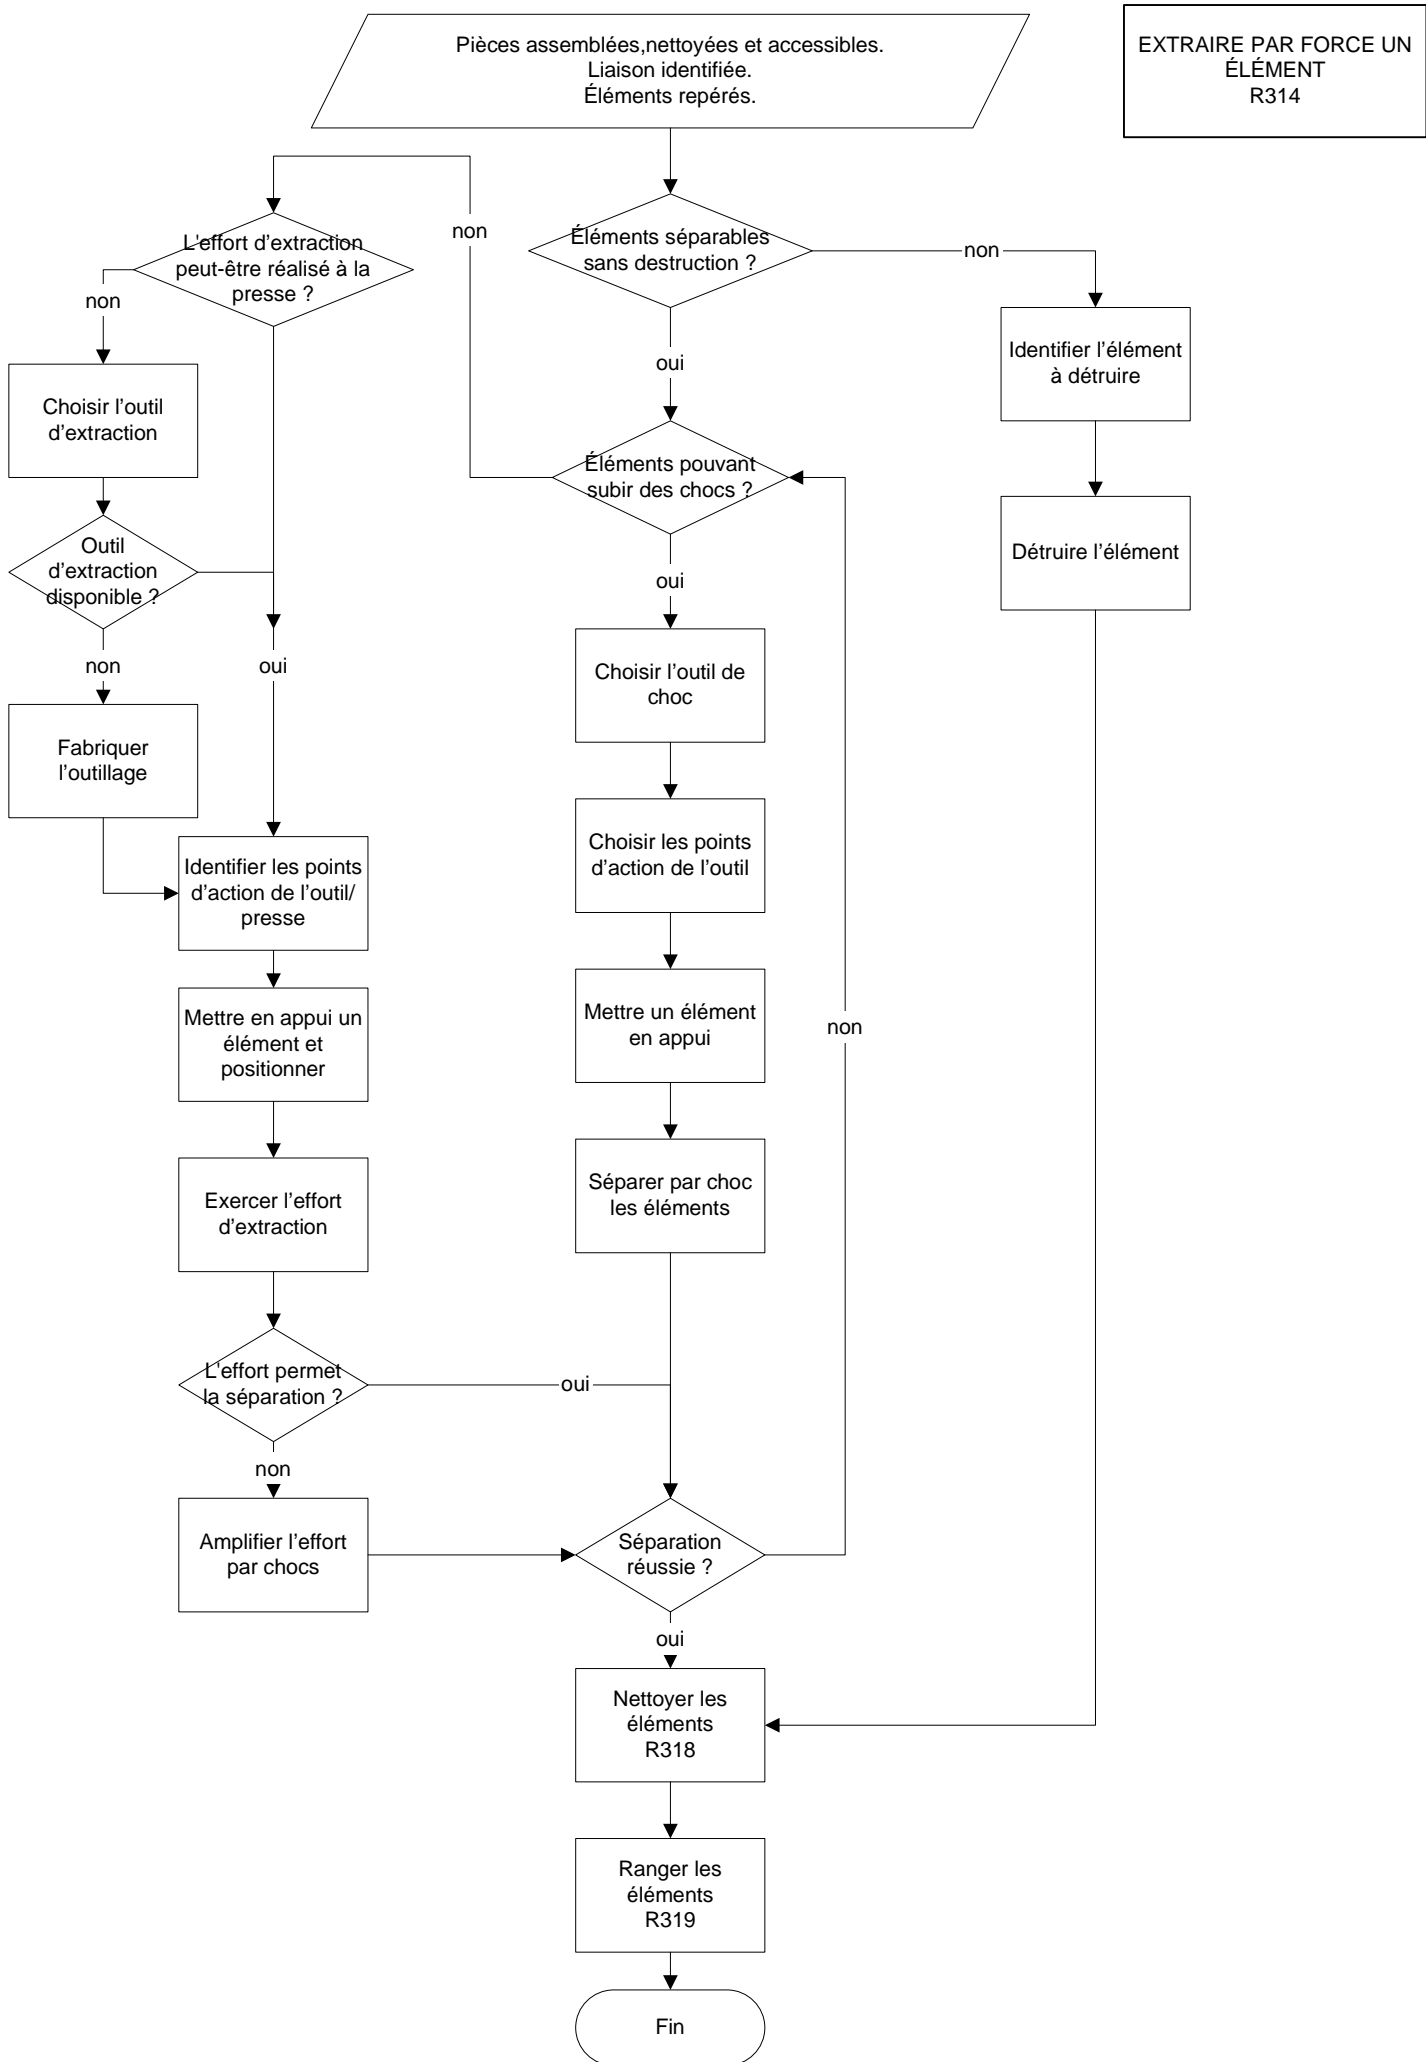

Ensemble déconnecté,
vidangé.
Matériel de levage certifié.

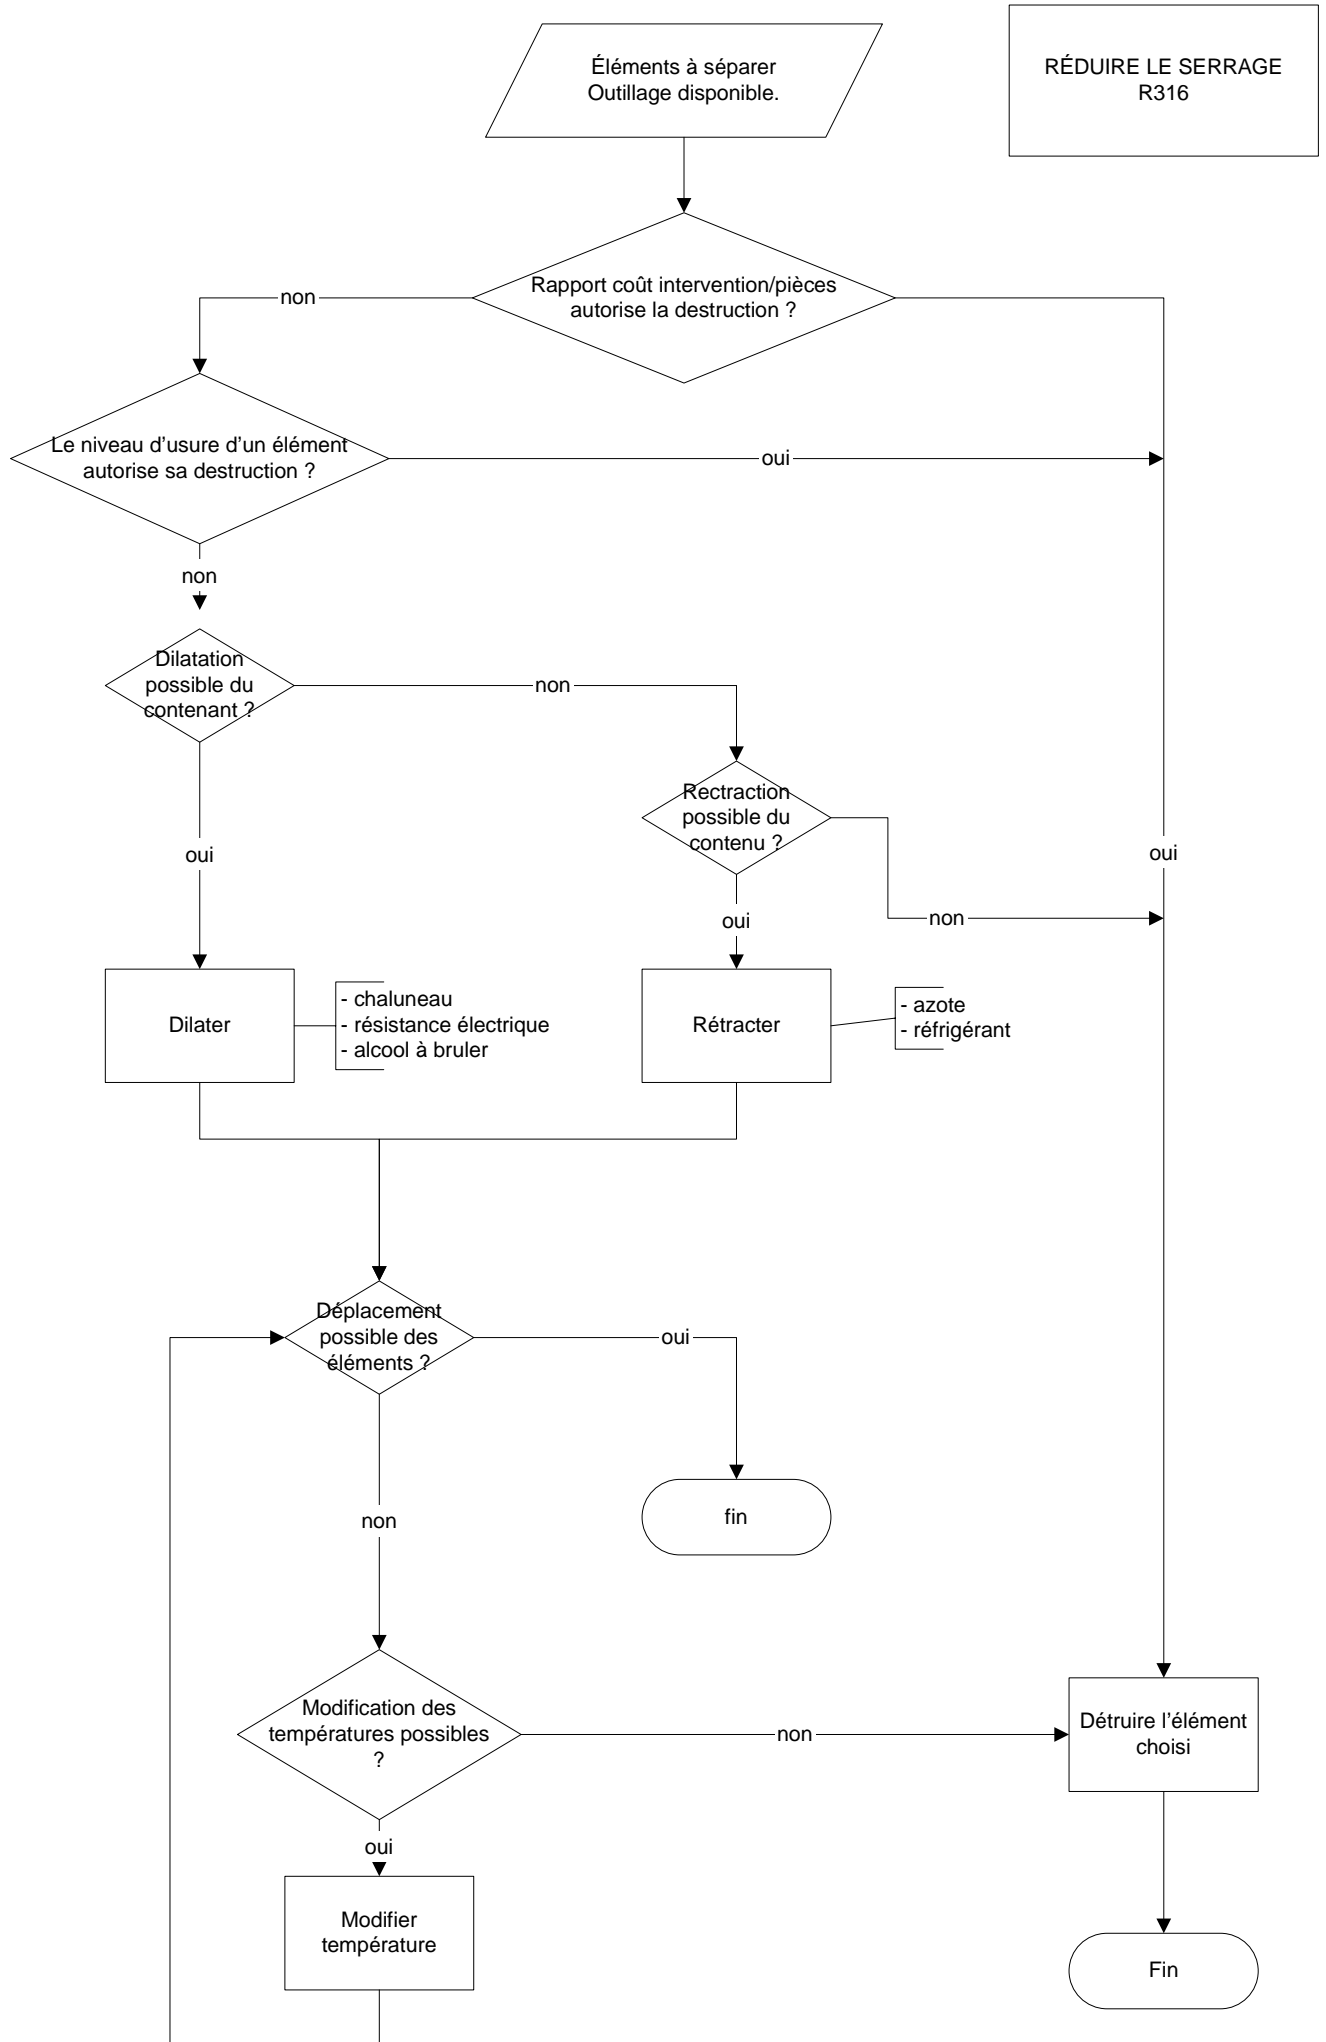

DEPLACER UN SOUS
ENSEMBLE
R308

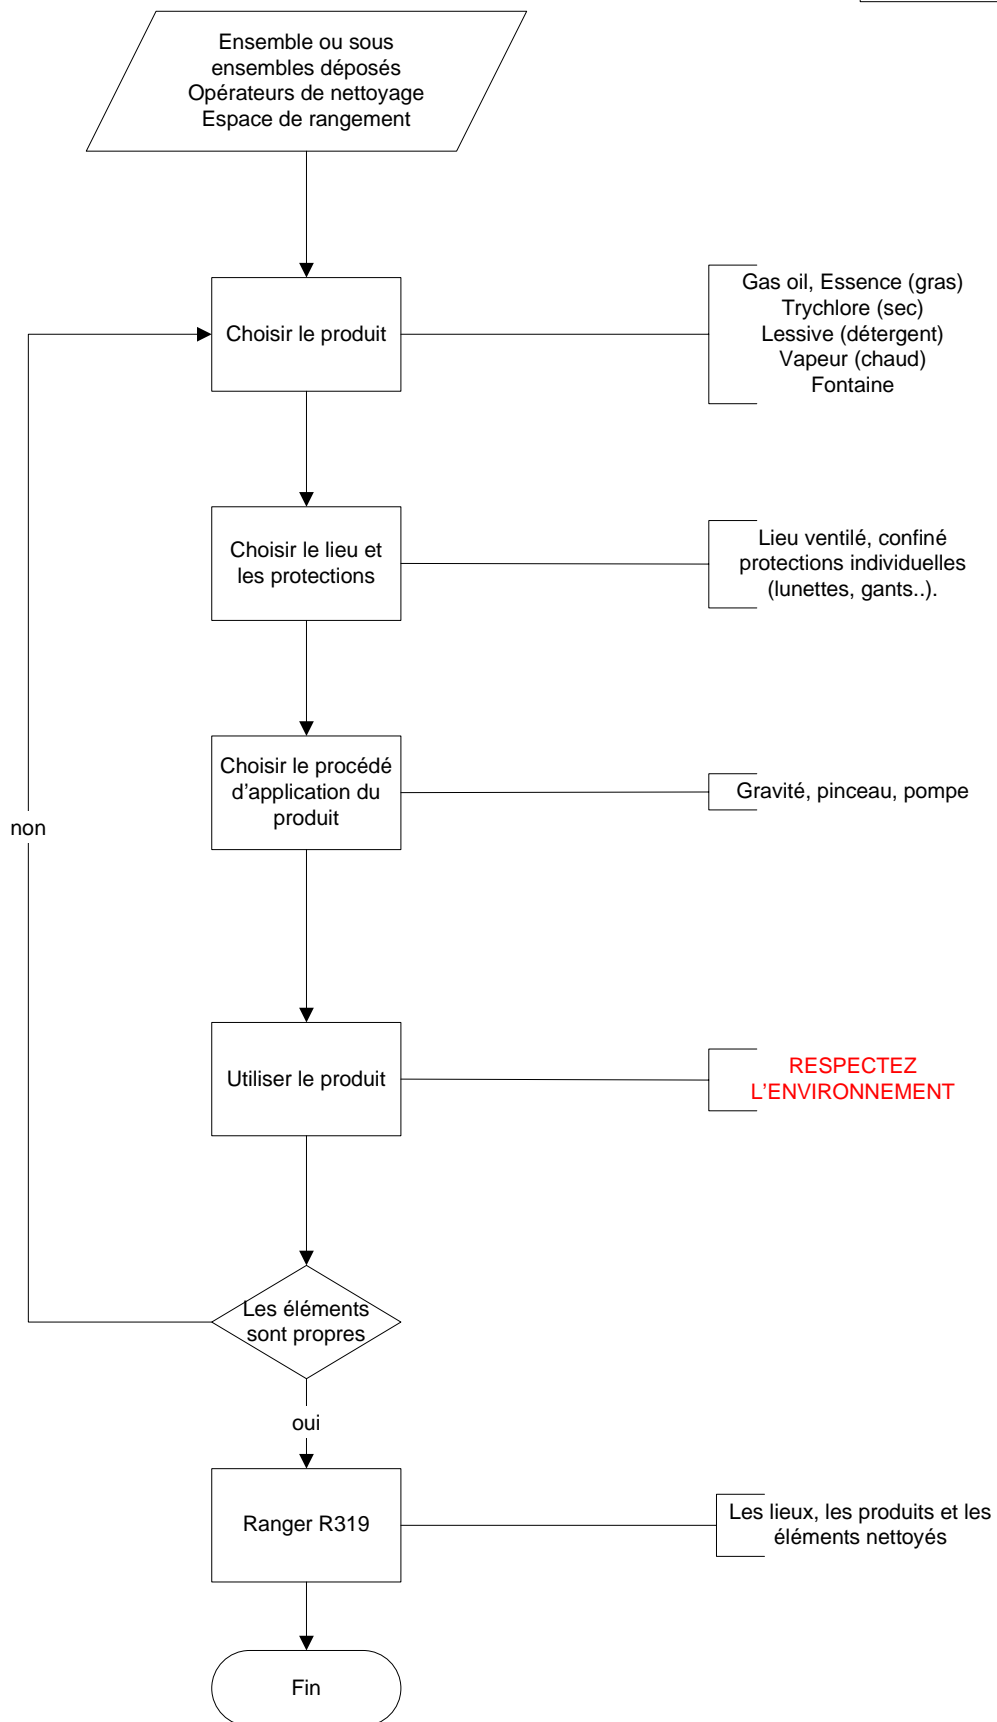

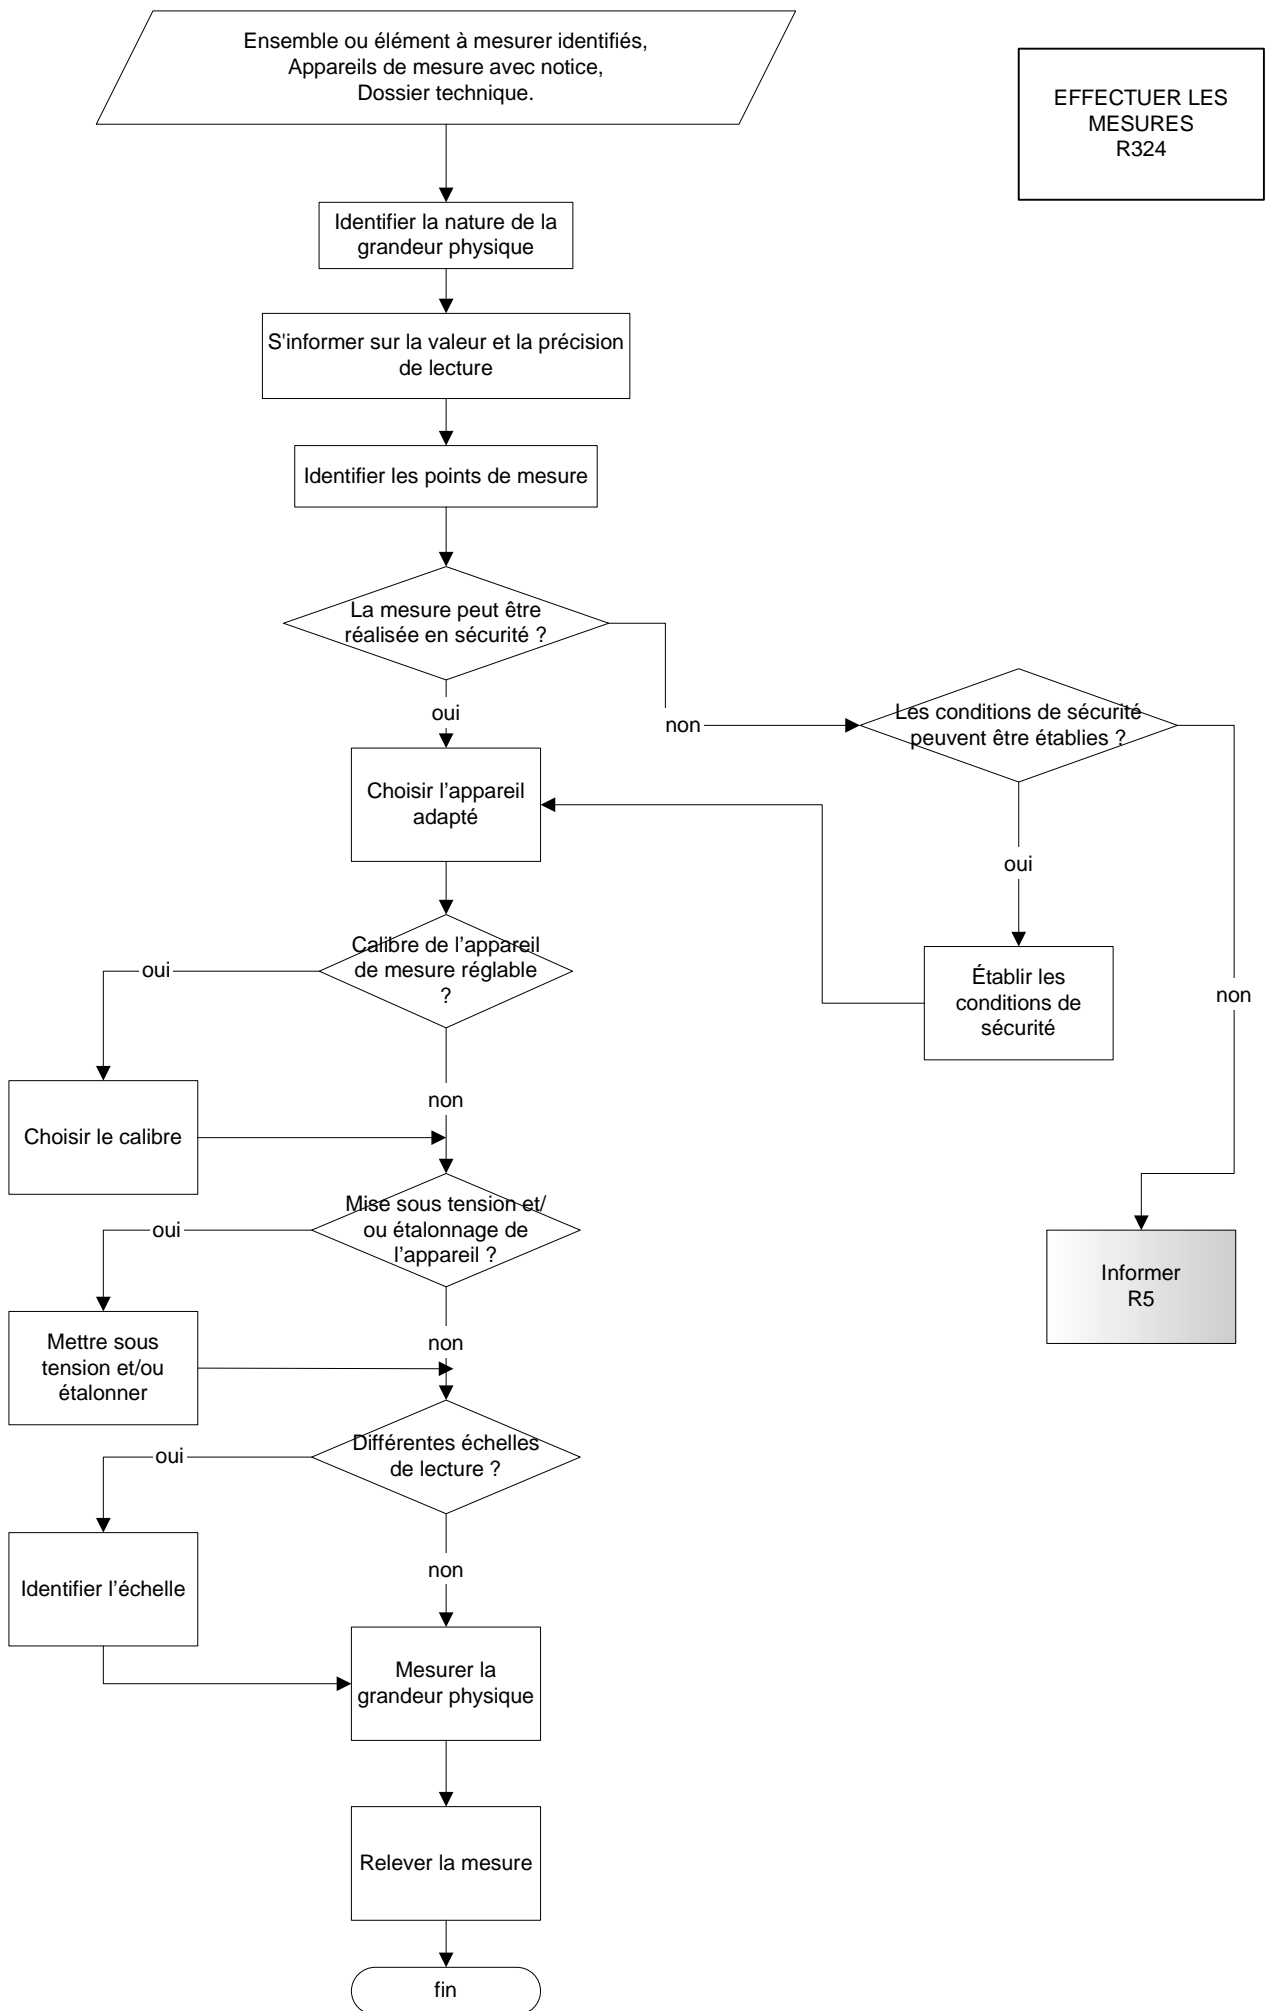

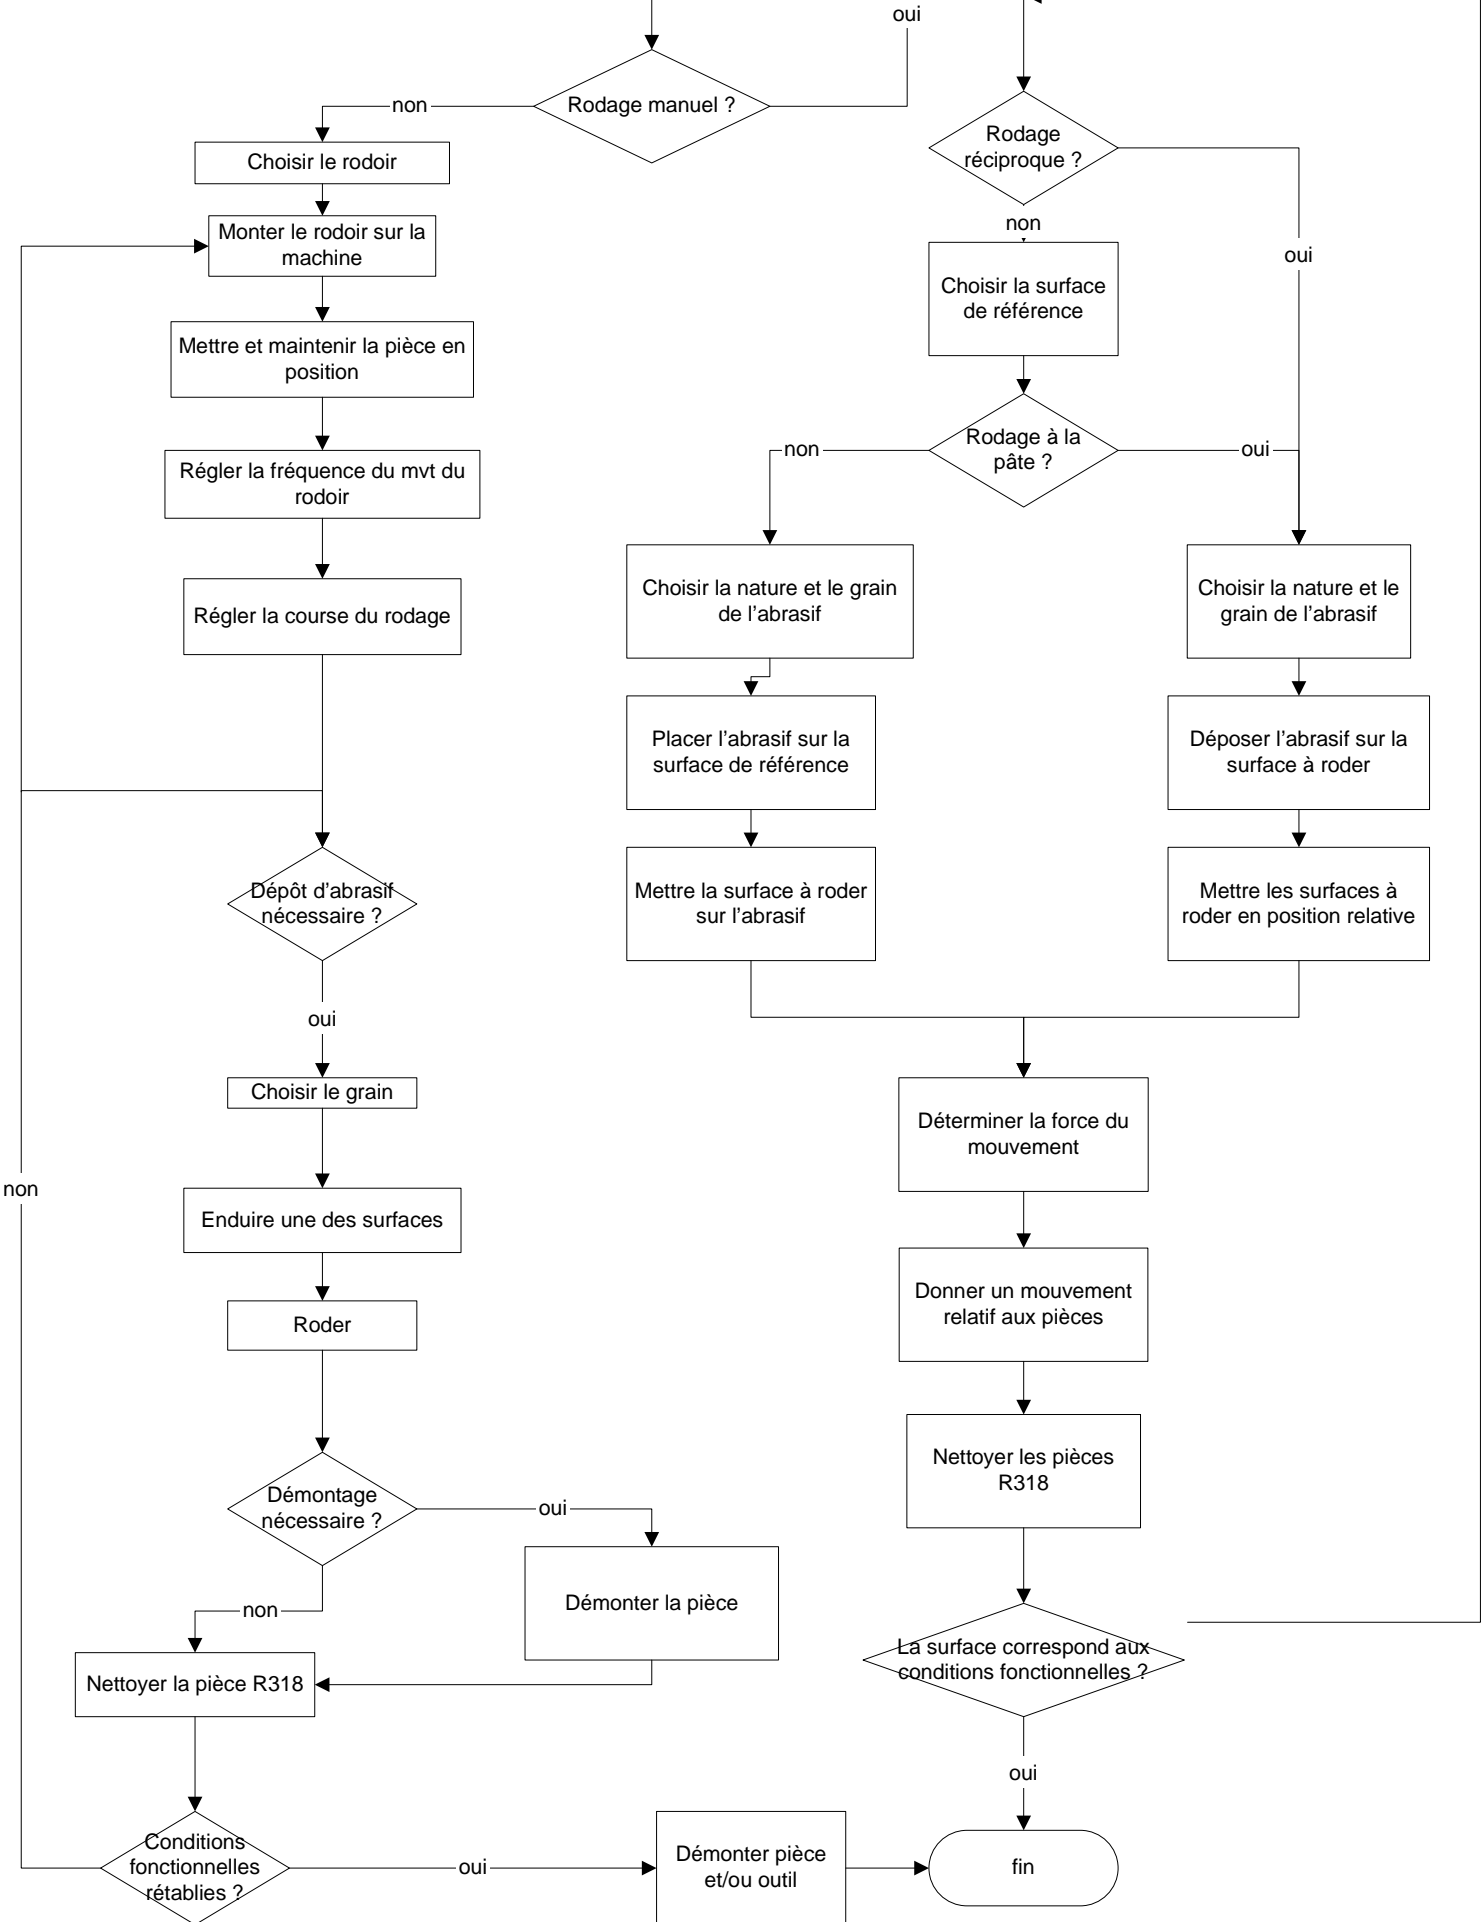

NETTOYER LES
ELEMENTS
R318

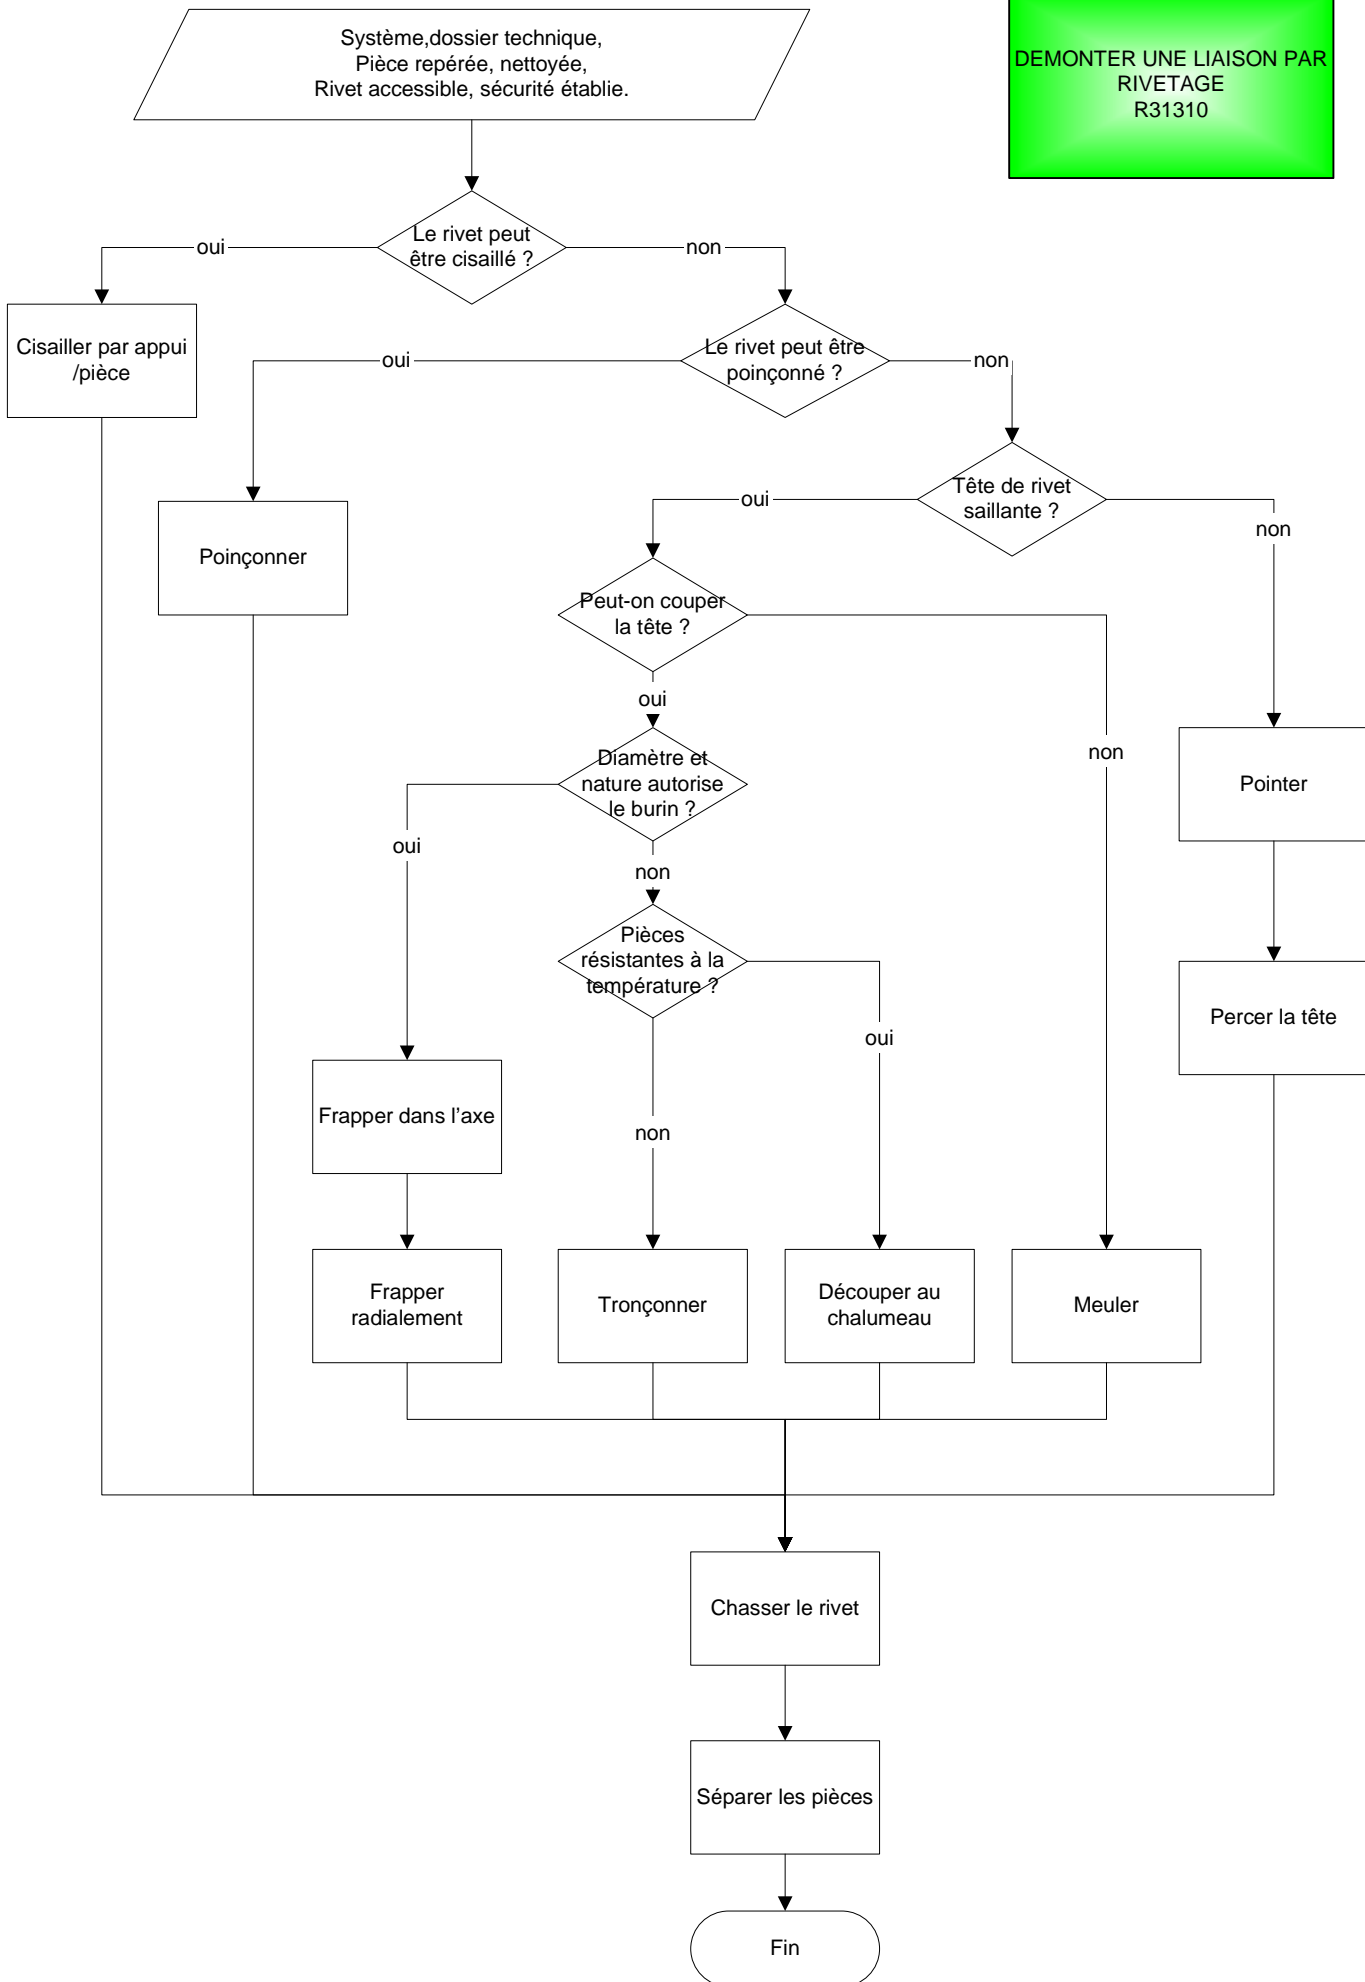

RENOVER PAR RODAGE UNE SURFACE R340

Pièces contrôlées,
Surface à roder identifiée.

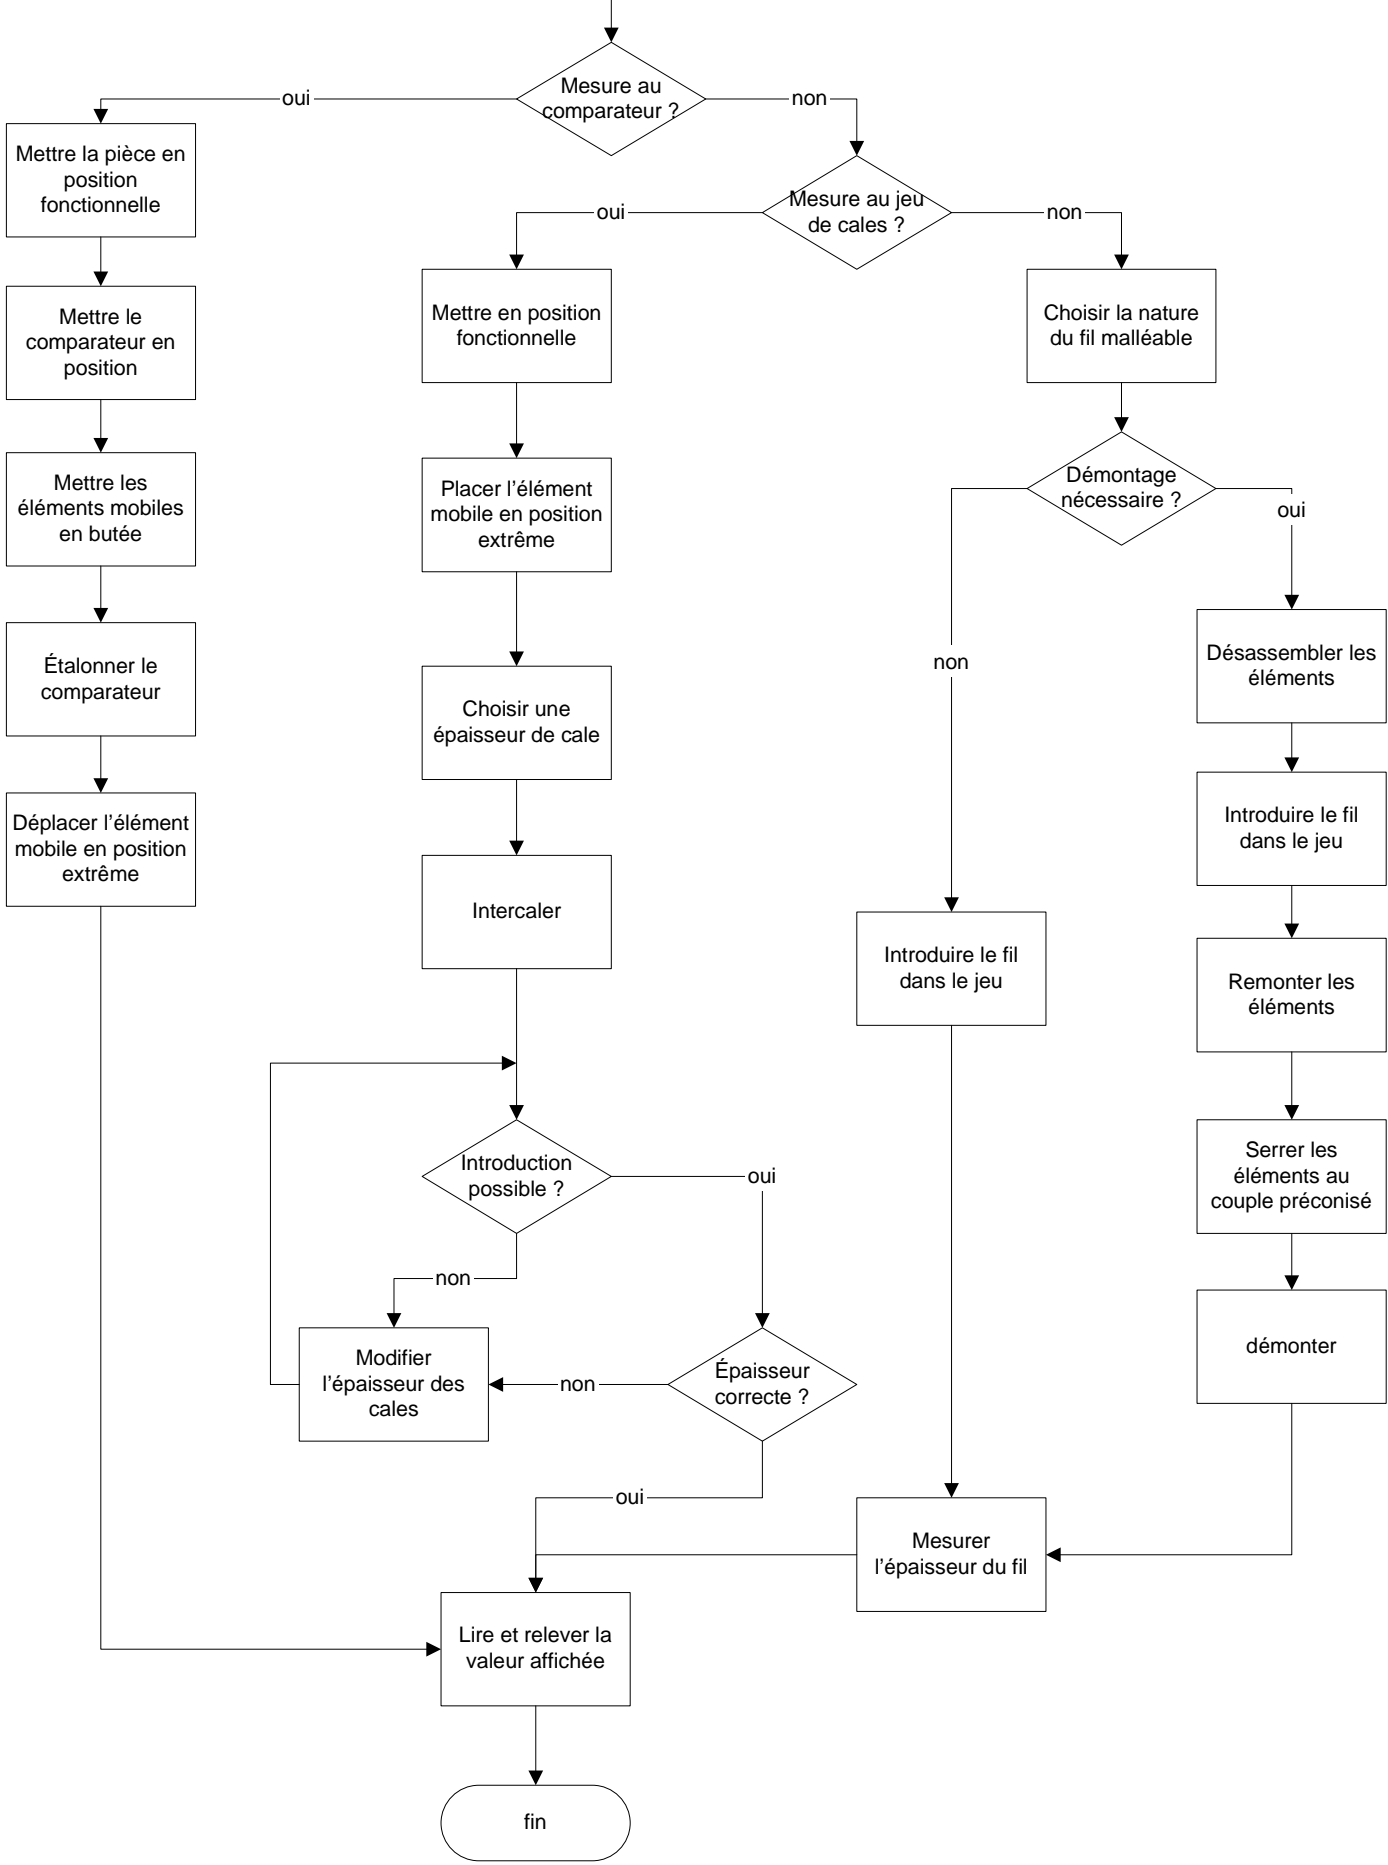

DEMONTER UNE LIAISON PAR RIVETAGE R31310

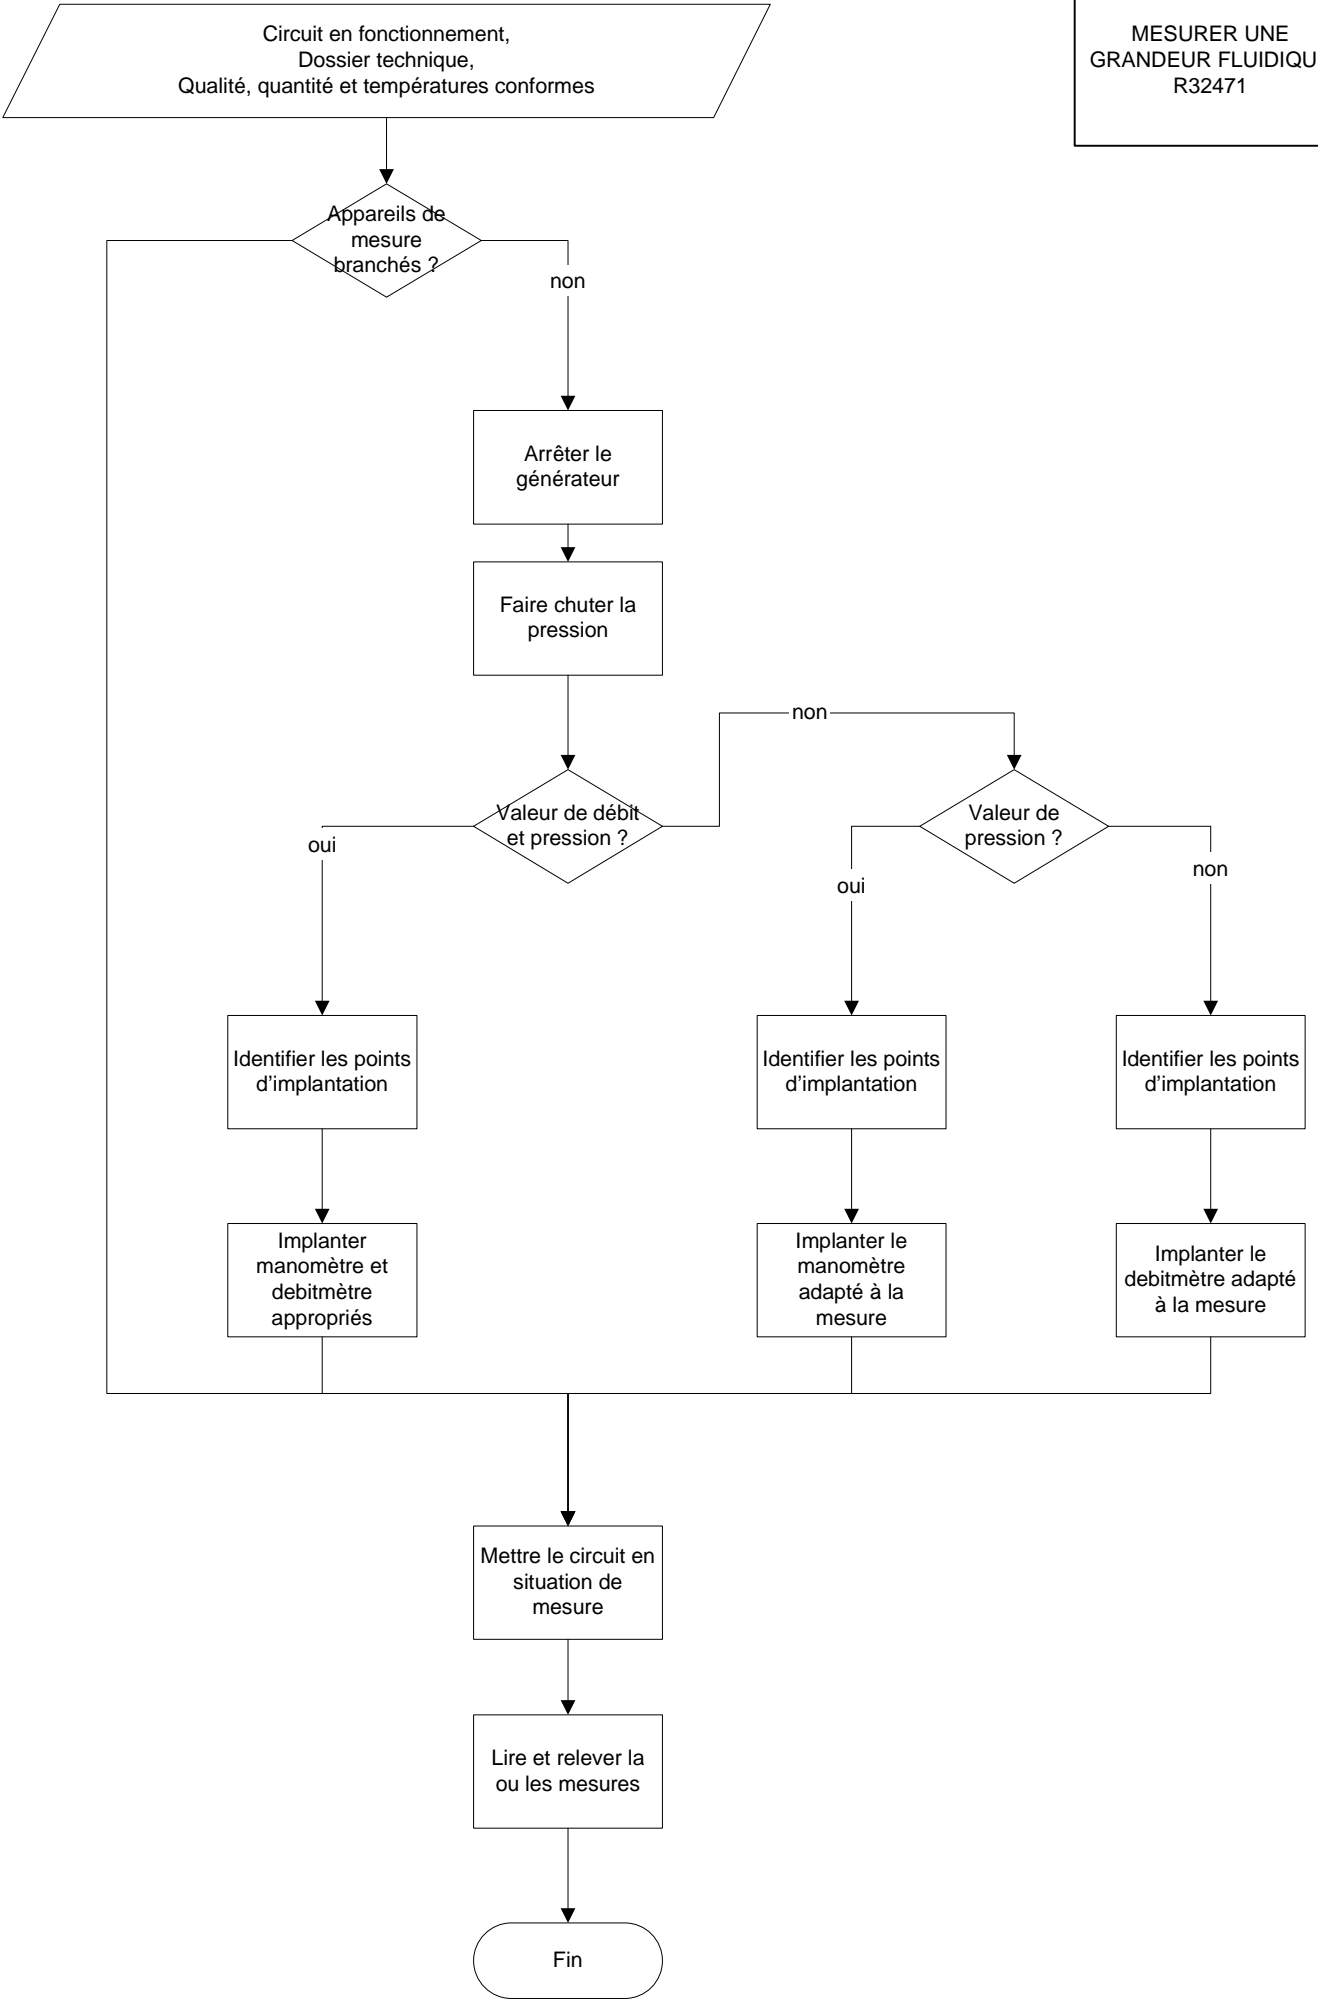

Système,
Dossier technique,
Sous-ensemble accessible et
nettoyé,
Sécurité assurée.

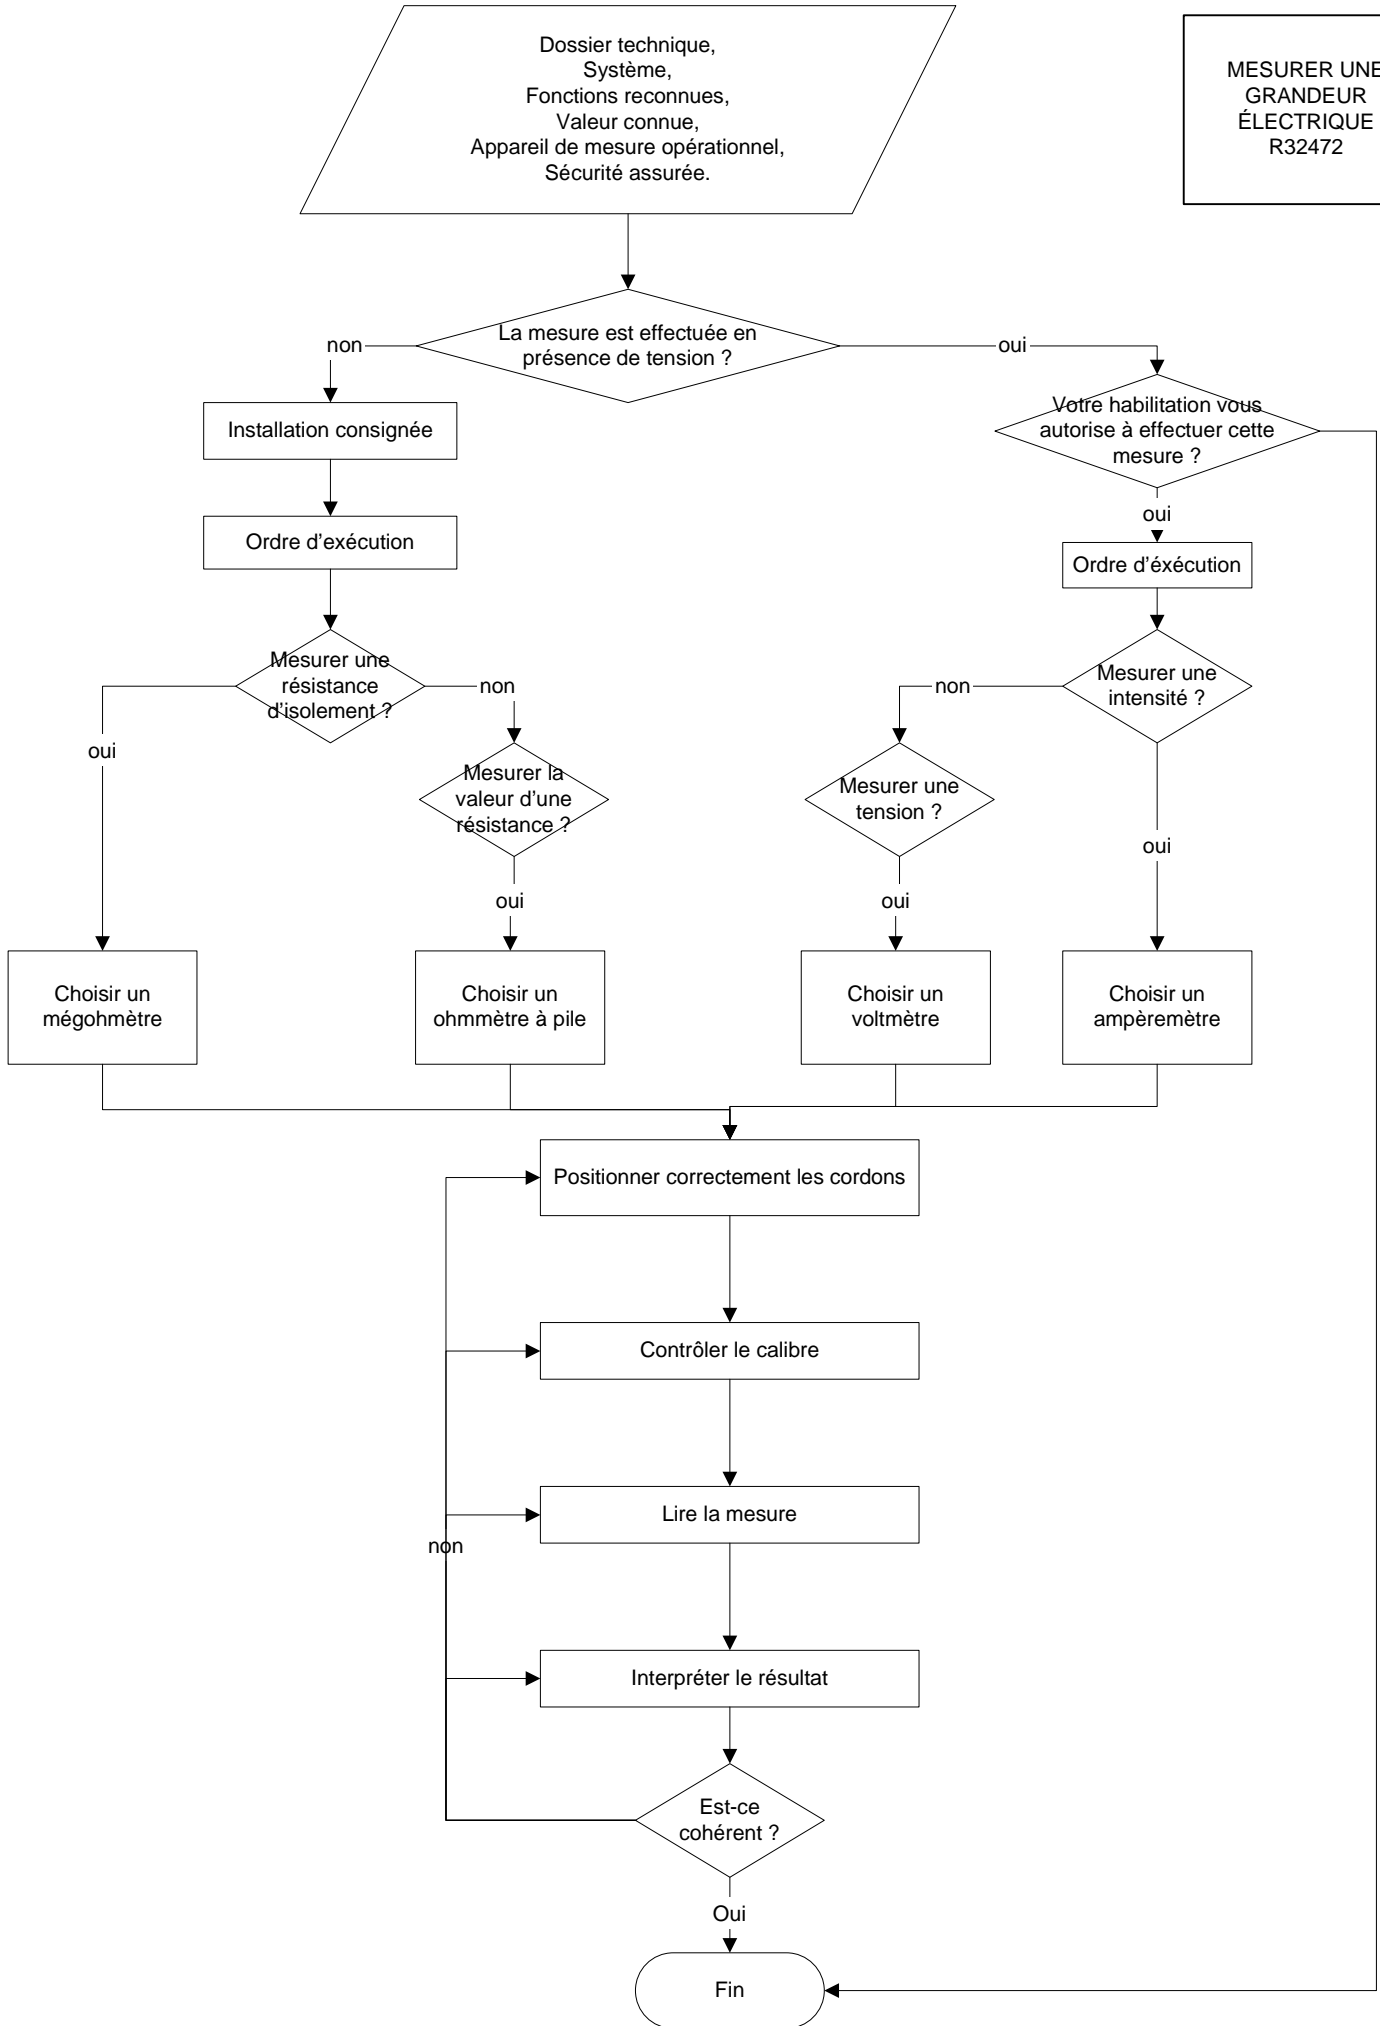

MESURER UN JEU
R324700

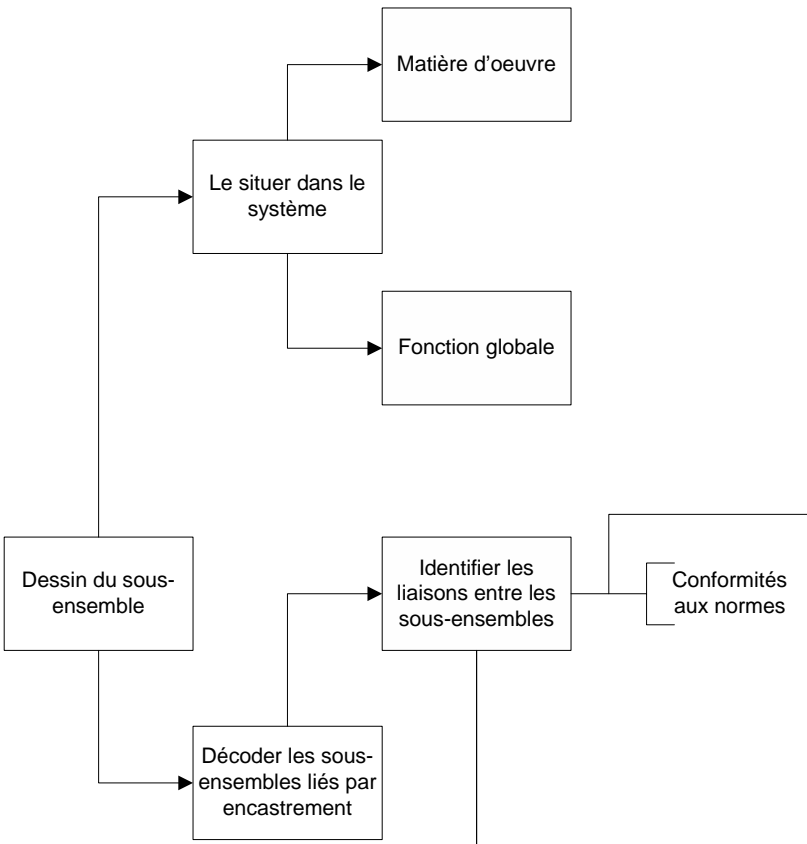

MESURER UNE DIMENSION R324701

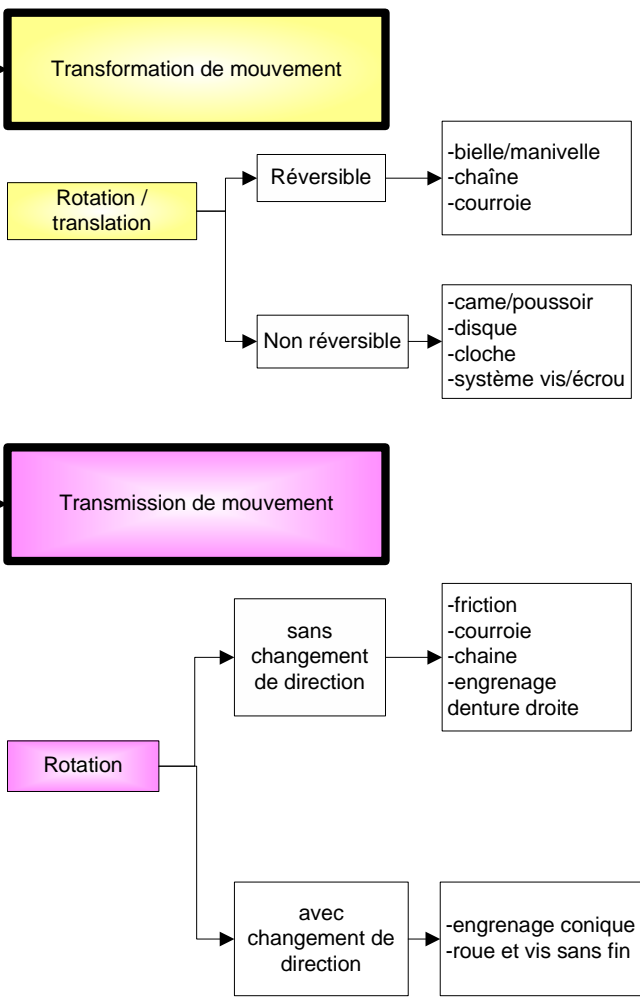

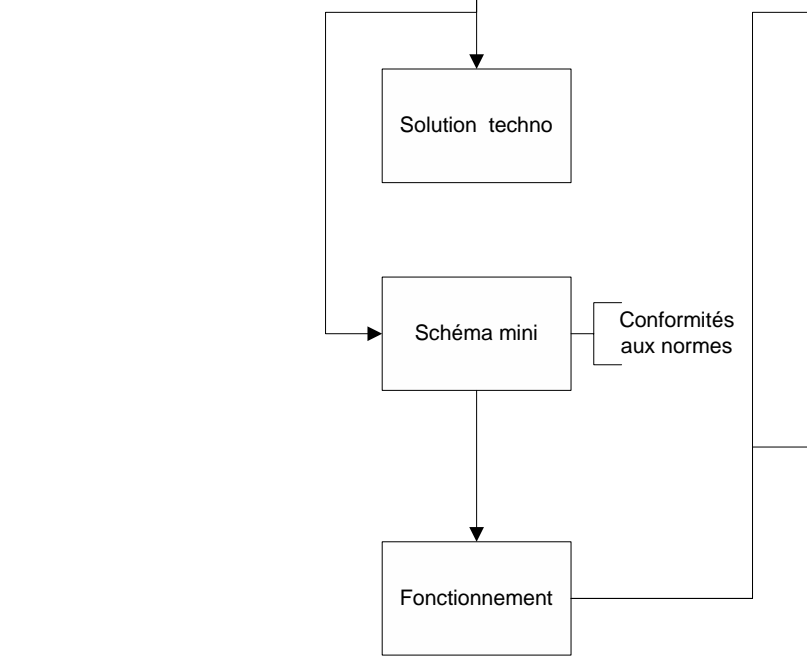

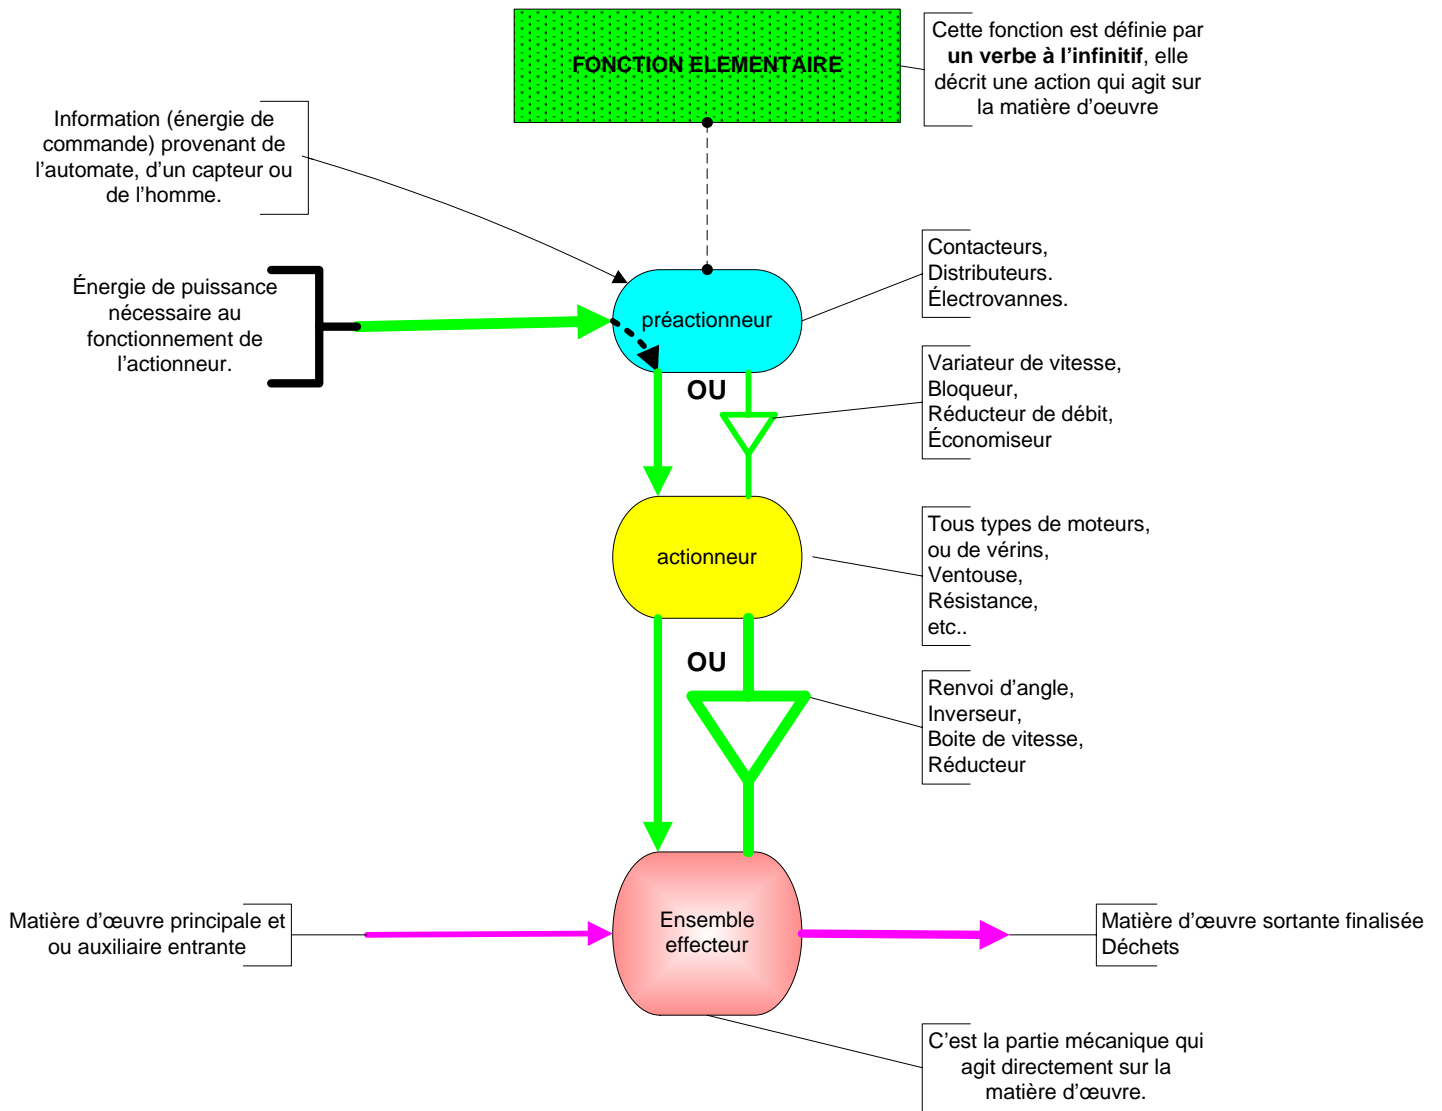

MÉTHODE POUR ANALYSER UN SOUS ENSEMBLE
